## Claims Aid Later Asked In Port Job

Brewster Asserts 'Friend' Was Named In San Francisco

### BULLETIN

WASHINGTON (AP)—Frank W. Brewster testified today he received \$5,000 a year in 1951, 1952 and 1953 as "stable manager" for a Seattle insurance man who was making \$300,000 a year in brokerage fees on Teamsters' Union welfare funds.

WASHINGTON (AP)—Frank Brewster testified today the Teamsters Union made a campaign contribution to Gov. Goodwin J. Knight of California and later interceded with Knight to get Charles Tail of Seattle appointed as San Francisco's port director. The amount of the contribution was not immediately brought out.

The testimony came in the 14th day of hearings by the special Senate Rackets Investigating committee. It was the third straight day on the witness stand for Brewster, the Western Teamsters boss.

Brewster himself opened the line of questioning which led to his testimony on a union campaign contribution to Knight and Tail's appointment.

"Corrects" Testimony  
Brewster had testified yesterday that he bought a pair of binoculars at a Seattle store for Tail. The witness opened up this morning by saying he wanted to "correct" his Tuesday testimony.

He said that while he bought the binoculars with the intention of giving them to Tail, because Tail was a friend of the Teamsters Union, he wasn't sure that Tail ever received them.

Robert Kennedy, committee counsel, then said Tail has been questioned and said he received the glasses.

But Kennedy said Tail's understanding was that the gift was from Brewster, not the union. Brewster had insisted that gifts he purchased with union-paid gift certificates had always been distributed in the name of the union—not as personal gifts.

Brewster said he certainly had intended to make clear to Tail that the glasses were a union gift.

Brewster went on to testify that the union made a \$2,000 campaign contribution when Tail ran for port commissioner in Seattle in 1954. He said Tail was elected but no provision was made to appropriate money for the position.

Kennedy then asked whether Brewster had spoken with Gov. Knight about a job for Tail in San Francisco.

"I believe I might have written a letter, I'm not sure," Brewster said.

## Zhukov Asserts No Hiding Place If War Started

LONDON (AP)—Russia's defense minister says any major new war would leave no hiding place and that the United States would not "be able, as formerly, to sit it out over the ocean and avoid destruction and deadly blows."

Quoted by Moscow radio today, Marshal Georgi Zhukov warned that Russia would use atomic and hydrogen bombs as its "main striking force" if such a conflict broke out.

"There is no place in the world where the aggressor could find shelter. The Soviet air force is able to strike shattering blows at any enemy no matter where he is or where he is hiding," he said.

## GI, Japanese Girl Friend To Be Executed As Slayers

SEDAI, Japan (AP)—An American soldier and his Japanese girl friend today were sentenced to death by a Japanese court for robbing and killing a Japanese woman, then setting her home afire to hide their crime.

The death penalty was the first imposed on an American by Japanese authorities since the end of World War II.

Pvt. Orvis L. C. Boone, 24-year-old Galveston, Tex., Negro, and Sheeko Sasaki were sentenced by Dist. Judge Mizuo Yamada to be hanged for triple crime last Sept. 4 in Setai.

The conviction can be appealed first to Japan's appeal court and later to the Supreme Court.

Boone already is under an Army court-martial life sentence for the bludgeoning slaying of U.S. Army Specialist Edward K. Maunakea, 21, of Honolulu, last July 31. His court-martial included testimony that Miss Sasaki would lure victims to an isolated spot for Boone to rob them.

Japanese courts since 1953 have tried American service personnel for offenses committed off their bases and while off duty. American civilians have been tried by Japanese courts for violations of Japanese laws since April 28, 1953, effective date of the San Francisco Peace Treaty.

## Motorist Survives 1,000-Foot Dive

Donald Motter, 35, lies trapped in his car after it rolled 1,000 feet down a cliff in the Hollywood, Cal., hills early today. He apparently skidded into reverse by mistake as he was leaving his home. Motter, who was trapped for three hours, suffered severe shock and multiple cuts, fractures and bruises.

## Wilson Urged To Eliminate Clerical Jobs

WASHINGTON (AP)—Sen. Byrd (D-Va.) called on Secretary of Defense Wilson today to expand and extend on a worldwide basis a proposed 12 per cent cut in Defense Department office workers in the Washington area.

Sens. Hickenlooper (R-Iowa) and Mansfield (D-Mont.) joined Byrd in applauding Wilson's announcement yesterday that he had told the Army, Navy and Air Force to eliminate 6,444 military and civilian jobs here in the year beginning July 1.

Wilson said he will order similar cuts in many defense headquarters—but not in combat units—at home and abroad. Byrd said this was "encouraging" but he urged Wilson to order across the board cuts at American installations all around the world.

"There would be a quite substantial budget saving if this could be made to apply to the entire defense establishment," Byrd said. The federal government's annual civilian payroll runs about 10 billion dollars and roughly half of it is for the Defense Department.

Wilson told a news conference yesterday he was having "some difficulty" in keeping current defense spending within scheduled limits.

## Food Prices Rise Sharply

NEW YORK (AP)—Wholesale food prices, as measured by the Dun & Bradstreet index, went up sharply this week.

At \$6.20, the index compared with \$6.12 last week and was 4.6 per cent higher than the year-ago week's \$5.93.

The figure was the highest since Sept. 27, 1955, when the index stood at \$6.23, and the 8-cent jump was the biggest in one week since an 11-cent hike last May 15. The previous 1957 high was \$6.16 and the index never went above \$6.18 during 1956.

## Warm-Up Due For Weekend

BALTIMORE (AP)—Five-day forecast: Clearing and cooler tonight, sunny and cool Thursday, rain and moderately cool Saturday, warmer Sunday and Monday with rain about Monday.

Temperatures will average about normal and rainfall will total one-half to three-quarters of an inch.

## Three Killed In Lab Blast At N. J. Plant

LINDEN, N.J. (AP)—An explosion in a vitamin laboratory killed three men and injured 11 others early today at the Merck and Co. pharmaceutical plant.

The men were all working in the first floor of a three-story brick building when flammable solvents used to make vitamin A apparently ignited, a company spokesman said.

Fire broke out briefly but was put out.

The dead were identified as: Walter Green; Ed Cenzrowski and Edward L. Munsch.

Leo Ritsch was seriously injured. He was taken to the Rahway hospital.

Ten other workers in the laboratory were treated for minor injuries at the plant dispensary.

The blast did extensive damage to the first floor of the building.

## British Strikes Delay Sailing Of Queen Mary

LONDON (AP)—Spreading strikes today forced a 24-hour delay in sailing of the liner Queen Mary for New York and threatened to involve a nationwide walkout by railwaymen.

## Wheat Stronger

CHICAGO (AP)—Wheat futures showed some strength at the start on the Board of Trade today, particularly in new crop months.

Corn, oats and soybeans showed little change.

## Steel Mogul Slaps Labor In Inflation

PITTSBURGH (AP)—Chairman Roger E. Blough of U. S. Steel Corp. said today in his annual report "the vast power of industry-wide labor unions in compelling annual wage increases far beyond increases in productivity is automatically compelling inflation."

"This is because, up and down the industrial production line, employment costs constitute directly or indirectly the vast bulk of all costs," Blough declared. He said "inflation is rapidly becoming automatic in America," adding: "If the American people come to accept inflation as a way of life—however reluctantly or apathetically—it is inevitable that both individuals and business will come to compete in borrowing in order to buy now and pay off later in cheapened dollars."

Last year, Blough said, his company had record breaking sales but lower profits. He attributed the lower earnings principally to a five-week industry-wide strike by the United Steelworkers.

## Nixon Views Tunis Parade

TUNIS (AP)—Vice President Nixon and guests from 33 nations watched free Tunisia parade its new army of 3,000 men in celebration of its first independence anniversary.

The vice president and Mrs. Nixon, winding up a tour of Africa, sat at the right side of the bey, Sidi Mohammed al-Amin, for the celebrations.

A delicate diplomatic problem was solved when the French representative, Justice Minister Francois Mitterand, was seated in front of the reviewing stand and Algerian nationalist leaders were given back seats out of his view.

## Bull Run Road Brings Protest By 'Johnny Reb'

WASHINGTON (AP)—Rep. Frank E. Smith (D-Miss), a true Southerner, fired a salvo today in the third battle of Bull Run—or Manassas—to Confederates.

He protested a proposal to run a highway through Manassas Park, Va., which includes much of the battlegrounds of the two famous Civil War battles of Manassas—or Bull Run to Yankees.

And to you who don't know it either way, the battle "A" lies about 25 miles southwest of Washington.

DEARBORN, Mich. (AP)—A second man died today of injuries suffered in an explosion at the Ford Motor Company Rouge plant.

## Macmillan Arrives For Parleys

TUCKER'S TOWN, Bermuda (AP)—British Prime Minister Harold Macmillan flew into Bermuda today for urgent talks with President Eisenhower on the Middle East crisis and half a dozen other world issues.

Eisenhower, winding up a week's health cruise on the guided missile cruiser Canberra, was due here six hours later.

Macmillan's big double-decked Stratocruiser from London touched down at Bermuda at 9:59 a.m.

## Hopes Rise For Cut In Income Tax

House Leaders See Prospects Better If Budget Lopped

By B. L. LIVINGSTONE  
WASHINGTON (AP)—The prospect of budget cuts today revived talk in Congress of income tax reduction.

Influential House leaders took notice of it by stating privately that reduction of government spending by as much as three or four billion dollars might start a stampede for general tax relief.

But the strong possibility remained that even if the budget is cut substantially, tax cuts would be delayed until next year when Congress members could learn the actual size of a surplus, rather than an estimate of it.

## Surplus Is Expected

President Eisenhower's budget estimates show an anticipated surplus of \$1,700,000,000 for this fiscal year ending June 30, and \$1,800,000,000 for fiscal 1958.

If the President's 1958 spending budget of \$71,800,000,000 is cut by three billion dollars, as some Appropriations Committee members say can be done, the government would start its new business year next July 1 with a prospect surplus of nearly five billion dollars.

Some leaders feel that such a situation might make it possible to head off demands for general tax relief.

Thus far, Capitol Hill has been in general agreement with the Eisenhower administration that tax reduction is "out" because of its inflationary aspects at a time when curbs are being placed on credit expansion. The administration has contended also that any surplus should go toward reducing the national debt.

Rep. Mills (D-Ark), influential member of the tax-writing Ways and Means Committee who frequently reflects the attitude of House leaders, said: "If we can create three or four billion dollars of surplus through reduction of expenditures, I would want the American taxpayer to enjoy a part of that reduction."

Rep. McCarthy (D-Minn.), also a member of the committee, said in response to a reporter's questions that in the event of a large surplus Congress might have to cut taxes "for the sake of the economy."

## Sales Tax Cut Urged

Rep. Eberhart (D-Pa.), another committee member, predicted that a Ways and Means subcommittee "without doubt" will recommend later this session a reduction in federal excise (sales) taxes of about 900 million dollars.

Rep. Reed of New York, the senior Republican on the Ways and Means Committee, told a reporter that he didn't expect the House to vote tax reduction until 1958, an election year.

## Witnesses Accused By Adams' Counsel

LONDON (AP)—Counsel for Dr. John Bodkin Adams today accused three of the prosecution's star witnesses in the "Eastbourne widow" murder trial of discussing their evidence on the way to court this morning in violation of the judge's warning.

One admitted under cross-examination that during the conversation the remark was made, "Don't say that or you will get me into trouble."

Chief defense attorney Geoffrey Lawrence charged that three nurses who are testifying for the Crown against the 58-year-old doctor took the same train to court and talked about the case.

The nurses had cared for Mrs. Edith Alice Morrell, the wealthy 81-year-old widow the doctor is accused of poisoning in 1955 to benefit from her will. Her body was cremated and her ashes scattered over the English Channel.

The third day of the trial saw the partly doctor still looking supremely confident in the dock at historic Old Bailey. And since last night he was assured that even if convicted, he will not hang.

The House of Lords last night gave final passage to the bill previously approved by the House of Commons to limit the death penalty to certain types of murder. The Queen's signature, an automatic step, will make it law.

Poisoners now are exempt from the gallows. Murders still punishable by hanging include shooting, killing of police or prison officers, killing during attempts at theft and killing while resisting or avoiding arrest.

## Dulles Takes Off For 'Big 2' Talks

WASHINGTON (AP)—Secretary of State Dulles took off today for the British-American Bermuda conference, saying he held "hope for good results."

Dulles told reporters at Washington's National Airport he had no "independent statement since this is the President's conference."

President Eisenhower is meeting British Prime Minister Harold Macmillan.

## Market Edges Up

NEW YORK (AP)—The stock market moved slightly higher in routine dealings today.

## Head Of UN Will Confer With Nasser

Israeli Officials Cite War Danger By Egypt Actions

CAIRO (AP)—U.N. Secretary General Dag Hammarskjold headed for Cairo today to confer with Egyptian leaders on the future of Gaza, the Gulf of Aqaba, the Suez Canal and other issues threatening a new Middle East war.

Leaving New York by plane last night, Hammarskjold predicted "we may be able to establish a situation in Gaza that will give all parties satisfaction, including Israel."

The secretary general expects his trip to last nearly two weeks. He said he will see Egypt's President Nasser when he reaches Cairo tomorrow but added he did not know whether he would visit Israel.

## To Discuss Canal Clearing

Hammarskjold said his talks in Cairo would deal with U.N. responsibility for clearing the Suez Canal, future activities of the U.N. Emergency Force and perhaps "cover other ground."

His parting statement came on the heels of Israeli Foreign Minister Golda Meir's warning that Israel "cannot agree to a belligerent Egypt coming back to Gaza," and Premier David Ben-Gurion's in an interview that Israel would fight again if Nasser "tries to block our historic and legal passage" through the Gulf of Aqaba.

The UNEF units which moved into Gaza after Israel pulled out are being prodded by Egypt into gradually yielding up their positions on the Gaza-Israeli frontier.

Egyptian Foreign Minister Mahmoud Fawzi was reported, however, to have assured U.N. Undersecretary Ralph Bunche that Egypt has no intention of sending Egyptian troops into the Gaza Strip immediately.

A U.N. spokesman in Cairo denied a Cairo radio report, attributed to Gaza Gov. Hassan Abdel Latif, that UNEF had agreed to evacuate the strip within 48 hours and deploy exclusively along the 1949 armistice line. The spokesman said no time limit has been fixed for the shift.

In a terse memorandum, Nasser's government said yesterday it would respect the spirit of the 1955 agreement opening the canal to international traffic but ships plying the 103-mile waterway must pay tolls in advance to the Egyptian Suez Canal Authority or its agents.

## Ignores West Proposal

The memorandum ignored a Western proposal that half the tolls be paid to an independent group such as the World Bank pending settlement of the claims.

## Cyprus Dispute Conciliation Set

LONDON (AP)—Britain announced today she is ready to accept an offer of the North Atlantic Treaty Organization to conciliate in the Cyprus dispute.

Colonial Secretary Alan Lennox-Boyd told the House of Commons the NATO offer is to conciliate among Britain, Greece and Turkey all members of the 15-nation alliance.

Lennox-Boyd said that, with the new development, Britain is making a fresh appeal to Archbishop Makarios, exiled Greek Orthodox leader of the Cypriot union-with-Greece movement, to call a halt to the campaign of violence in the British Mediterranean colony.

## Probers Find No Sabotage In Magsaysay Plane Crash

MANILA (AP)—Philippine investigators today ruled out the possibility that sabotage caused the plane crash in which Philippine President Ramon Magsaysay died.

Col. Ricardo Papa, deputy chief of state police, said evidence gathered on Sunday's Cebu Island crash indicated no foul play was involved.

The investigators announced the crash which killed 26 persons was not preceded by an explosion as the sole survivor, newsman Nestor Matala, originally had reported.

The possible causes were said to have been narrowed down to pilot error and engine failure.

Reconstructing the disaster, the investigators surmised that the two-engine plane's right wing snapped off against a tree as it skirted a mountainside.

Matala's story aroused speculation of Communist sabotage against the 49-year-old President, one of Asia's staunchest anti-Communists.

American air experts have been helping in the exhaustive investigation, which involved assembling bits of plane wreckage strewn for hundreds of feet over the jungle mountainside.

Nearly 200,000 Filipinos kept a mourning vigil around Malacanang Palace.

## Cable Breaks, Five Workers Die In Plunge

JACKSONVILLE, Fla. (AP)—A cable snapped, and a construction elevator carrying 19 workmen plunged five floors to the ground yesterday. Five of the men were killed and the rest injured.

"It sounded like an explosion when it hit—then there were screams," said Bob Barish, an insulation superintendent at the new Duval County courthouse the men were helping to build.

Among the horrified witnesses were women waiting for their husbands to finish up for the day. The 85-foot fall killed George Edward Leach, 31; Dewey Woods, 39; Glenn D. Idol, 25; Jack Monroe Thomason, 24; Dave Atmore, 36. All were white except Atmore.

The elevator was on the outside of the new courthouse, a seven-story building being constructed along the St. Johns River in downtown Jacksonville.

Arthur W. Arent, vice president of George D. Auctier Co., general contractor for the project, said he could not explain what caused the accident. Safety devices on the elevator were "foot proof," he said, "but for some reason they didn't hold when the cable broke."

J. W. Waters, crane operator who was running the elevator from the ground, said it had been lifting marble slabs most of the afternoon. He said he threw the brakes when he saw it falling but they would not catch. He was hospitalized for shock.

## Stock Quotes Can Be Given In A Second

WHITE SULPHUR SPRINGS, W. Va. (AP)—An electronic quotation system able to give sixty persons quotations on any given stock within a period of one second is a development under investigation by the American Stock Exchange.

The quotation system is part of a program to improve public information, public service and operating efficiency, according to exchange president Edward T. McCormick.

McCormick addressed the Young Presidents Organization during its week-long meeting here.

He said other services the exchange has initiated are publication of a monthly magazine, the lengthening of trading hours to permit Saturday closings, and preparation of a motion picture describing the exchange.

still at war with Israel and therefore doesn't have to let her use the canal.

U. S. Lt. Gen. Raymond A. Wheeler, boss of the U. N. salvage fleet, received Egypt's permission to start work Friday on the Egyptian frigate Abukir, sunk near the south end of the canal. The Abukir and the tug Edgar Bonnet, due to be lifted Sunday, are the last remaining obstacles to navigation by ships of maximum tonnage. Wheeler has set April 10 as his target date for final clearance.

## Solons See Problems

Over Canal Settled

WASHINGTON (AP)—Egypt's new proposals for operation of the Suez Canal led to cautious forecasts among some senators today that the way may be opening toward a settlement of the Middle East crisis.

But they added that Egypt must show good faith in working to solve other problems in the area.

First reaction from the State Department was that the Egyptian plan for running the waterway fell short of being satisfactory.

While this view was shared by some members of the Senate Foreign Relations Committee, Senators Humphrey (D-Minn.), Mansfield (D-Ala.) and Sparkman (D-Ala.) said they feel the proposals of President Gamal Abdel Nasser offer some hope as a possible basis of settlement.

According to the American Cancer Society, 90 per cent of skin cancer patients are saved at present rates.

## Virginia 'Wonder Horse' Victim Of Heart Attack

RICHMOND, Va. (AP)—Lady Wonder, a brown mare with a reputation as the "swami" of the four-legged set, is dead at the advanced animal age of 33.

A veterinarian attributed the horse's death yesterday to a common human failing, a heart attack.

Over the years Lady attracted almost as much attention pecking away at a horse-sized typewriter contraption in her stall as did her more fleet-footed relatives on the nation's tracks.

Her mistress, Mrs. Claudia Fonda, claimed Lady could read minds and was clairvoyant. There were many who were willing to concede this while skeptics insisted if there was any clairvoyance it was possessed by Mrs. Fonda herself.

But whether it was clairvoyance or sheer coincidence, Lady's "answers" more than once caused a flurry of excitement. In 1952 the mare was credited by police in Quincy, Mass., with providing clues that led to the finding of the body of Danny Matson, a 4-year-old child missing for two years.

A psychologist and specialist on extra-sensory perception, Dr. J. B. Rhine of Duke University, once said Lady gave evidence of some telepathic ability. He later asserted, however, there was evidence of signaling.

## Kadar Lauds Soviet Union

MOSCOW (AP)—Hungarian Premier Janos Kadar arrived in Moscow today and hailed the Soviet Union as his country's "truest and most dependable friend."

The Hungarian official and his party were flown here in a Soviet jet airliner for 10 days of "ideological and economic" negotiations with the Kremlin.

On hand to greet the visitors at the airport were Soviet Premier Bulganin, Communist party chief Nikita Khrushchev, Deputy Premier Georgi Malenkov, A. I. Mikoyan and Mikhail Suslov and other members of the Presidium.

## Dynamite Blast Kills Four Men

The girls, named Cheryl Lynn, 6 pounds, 7 ounces, and Carol Lee, 6 pounds, 4 ounces, are her third set of twins since 1952. The early sets both were a girl and a boy.

## Spring Here, Wet In East

By The Associated Press

A little cool and wet weather appeared likely to greet the arrival of spring in many parts of the country today.

A pair of low pressure areas spread a wide belt of precipitation in the eastern third of the country. One was over the lower Great Lakes region and the second off the Mid-Atlantic Coast, bringing snow, rain or drizzle from Lake Michigan eastward into southern New England and southward into the upper Ohio Valley and Mid-Atlantic Coast states.

## Schoolboy's TV Winnings Hiked In Science Quiz

NEW YORK (AP)—Robert Strom, 10, Bronx schoolboy, easily answered three scientific questions last night to run his TV quiz winnings up to \$80,000 toward a possible \$250,000.

The fifth-grader won \$16,000 to add to the \$64,000 he won last week on CBS-TV's "64,000 Questions."

He will return next week to try to boost the \$16,000 to \$32,000, and, if successful, will qualify to try the following week for his second \$64,000.

A contestant can advance through four \$64,000 rounds without losing any \$64,000 block he has won along the way.

## Father Accused Of Scalping Tot To Be Sentenced

OKLAHOMA CITY (INS)—A 41-year-old father has pleaded guilty to a charge of scalping his 23-month-old son.

Tony Mack Jobe, who entered his guilty plea yesterday, will be sentenced March 27. The county attorney's office said it would recommend a six year suspended sentence.

His wife told police her estranged husband beat her unconsentingly and then attacking their son last Feb. 5. She regained consciousness to find the baby's scalp dangling by a small piece of skin. The child survived.

## Bride, 15, Gains Divorce Decree, Will Write Book

DETROIT (AP)—Peggy Ann Solivari, 15, got a divorce yesterday from her 23-year-old husband, Dennis. Her mother said the girl is writing a book about her 10-month marriage.

"It ought to sell," said Mrs. Frances Geba, the girl's mother. "We've both been through a terrible ordeal."

Peggy Ann told the court her husband beat her on their wedding night and an average of three times a week afterward. "He was a no-account guy who kept sponging money from my mother," she added.

Time Running Out

As today's hearings proceeded, time was running out on the committee's demand that President Dave Beck of the Teamsters furnish it with his personal financial records.

Chairman McClellan (D-Ark.) said the special Senate committee investigating alleged labor-industry racketeering was ready to slap a subpoena on Beck for his financial data unless he turns them over voluntarily.

McClellan twice has requested the material and fixed 3 p.m. EST. as a deadline for an answer one way or the other. Beck, who was traveling in Europe until two weeks ago, promised a reply after he could talk with his attorneys, including former Sen. James Duff (R-Pa.).

## Students Set For Boycott, Protest Taxes

BLOOMINGTON, Ind. (AP)—Indiana University students, protesting a plan to tax their personal property here, were urged by school authorities today to study the legal angles before carrying out a threatened boycott of Bloomington merchants.

Robert Shaffer, dean of students, suggested the students confine their protests to "legal steps." Joseph A. Franklin, university vice president and treasurer, said they could appeal to the State Tax Board.

"A student demonstration could be interpreted as being immature and irresponsible where other legal steps are possible," Shaffer said.

County Assessor Frank Borland said last week his deputies will try to assess all student property, including automobiles and personal belongings.

A student group, calling itself the "All-Campus Anti-Tax Committee," circulated a printed appeal for the boycott. Merchants said they have felt no effects.

Myrrh and frankincense were the most precious of early perfumes.

### Mt. Savage Principal Submits Resignation

The resignation of Alfred H. Benna as principal of Mt. Savage High School was submitted to the Allegany County Board of Education yesterday afternoon.

In his letter of resignation to Superintendent of Schools Ralph R. Webster, Benna said that his health was not good and asked to be considered for a mathematics teaching position in one of the county high schools for next year.

Benna came to Allegany County as a mathematics teacher at Port Hill High School. He later was appointed principal at the old Barton High School and then moved to Mt. Savage when the new school was opened in 1952.

The Board of Education accepted Benna's resignation, Webster explained.

The Cumberland Symphony Orchestra was given permission by the board to conduct rehearsals in the Allegany High School auditorium May 7, 14 and 19, and to hold its final concert of the season May 21 there.

Permission was granted for use of the Fort Hill Stadium for the Easter Sunrise service on April 21. The East End Playground Association of Frostburg got permission to hold a country music program in the Beall High School auditorium this spring.

OUR COUNTRY

The union of hearts, the union of  
hands and the flag of our Union for  
ever.—Morris.

Spring's Arrival

THIS IS THE FIRST day of Spring.

Is there anybody who does not bid this

charming young lady welcome? We

doubt it. Spring is the one season that

has universal appeal. Even those who

love Winter—and there are many such

—are usually glad when it is over and

Spring makes her formal appearance.

And we use the words "formal appear-

ance" advisedly. Winter is a stubborn

old girl who is always reluctant to bow

herself out and make room for her

more attractive rival. She has the habit

of lingering on the stage, making des-

perate efforts to excite further admi-

ration, but it is a hopeless task. In due

time Old Sol gives her a final shove

and off she goes, with the way now

cleared for buds and blossoms, balmy

days and that delightful melody which,

for want of a better name, we call

"spring fever."

MISS SPRING is something of a

flirt. Here in Western Maryland, where

March is always the unpredictable

month, she has been making intriguing

promises for something new. Bright

days with just a touch of warmth in

them have fooled us within the last

week or so. We were inclined to be-

lieve that the capricious little lady

meant business, that she had come to

stay and that Old Lady Winter was on

the way out. But like many other

flaunters who have high regard for

themselves, Miss Spring is given to

false promises. So we can't guarantee

whether her arrival today will be only

formal and official or whether she will

linger to gladden our hearts. If we

recall correctly she had a difficult time

getting a real foothold last year and

Winter, in a desperate effort turned

loose a snow storm as her final gesture

that carried March out like a lion. It

was as a lion that March came in this

year so, if the old saying has any truth

in it, we have reason to hope that it

will go out like a lamb. Be that as it

may, Spring is here officially and it

won't be too long until we are enjoying

her presence to the full. Whether the

fact that Spring is the prelude to Sum-

mer will bring joy to the multitude,

depends entirely upon the individual.

Some are anxious for the hot summer

days to come, others loathe them. How-

ever we moderns have one advantage.

For those who have always dreaded

the terrors of summer, air conditioning

and other methods of cooling houses,

have been a boon.

BUT SPRING MEANS more than

flowers and delightful days. It likewise

involves duties. There is housecleaning,

for example. And there is yard clean-

ing and neighborhood cleaning and a

lot more along the same line that

requires work and planning. The cur-

rent week has been proclaimed by the

Governor as "Clean Up Week" and it

is hoped that all the citizens of

Maryland are giving their co-operation

in an effort to "Keep Maryland

Beautiful." If this is done we will all

enjoy Spring just that much more. It

has been pointed out that cleanliness,

like charity, begins at home and that

the well disposed citizen will see to it

that his own property receives the

attention all property needs at the

close of Winter. Garden Clubs, 4-H

Clubs, Boy and Girl Scouts, civic

organizations—all are interested in the

clean-up campaign. So let us lend our

efforts to provide a proper setting for

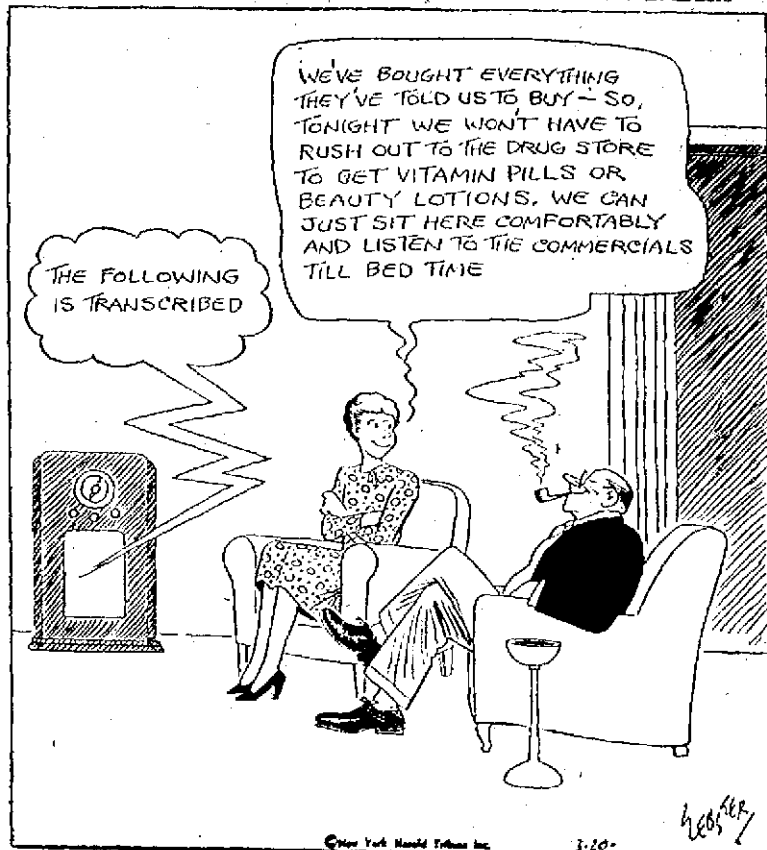

the debut of Miss Spring of 1957.

## Rayburn Record

SPEAKER Sam Rayburn has recently been honored on two counts. He has been a representative for 44 years, a longer service in either house of Congress than anyone else today can show, and he has been speaker of the House longer than anyone else in history. Henry Clay used to hold the record, 10 years. Rayburn is now in his 12th. He would have been put to it, however, to equal the record which a New England senator has it in his power to set. George F. Edmunds, one of the great senators of his day, who might have been the Republican nominee for president had he come from a large state and not Vermont, served from 1866 to 1891. Then, wearied of the work, he resigned. He lived till 1919, vigorous to the end. In view of the esteem in which his state held him, he probably could have been re-elected without challenge as long as he lived. This would have made a service of 53 years. Had he but foreseen the fame which he might have gained by setting a record quite unlikely to be beaten, Edmunds might not have resigned.

## Nixon Faced With Civil Rights Issue

WASHINGTON — In the absence of our three top government officials simultaneously "on tour," with one in Africa (Vice President Nixon), another in Australia (Secretary of State Dulles), and the head man at large in the Atlantic (President Eisenhower) — it was only natural that those left at home should talk about our modern Ulysses, plural.

Because of an incident in Africa, there has been much talk about Vice President Nixon. This question repeatedly popped up:

"When he gets home will he make a trip through the South?"

This was asked because in Africa the Vice President ran into the Reverend Martin Luther King of Montgomery, Ala. and invited the leader of the bus integration movement to come to Washington to confer with him when the Vice President got back here.

What King is interested in he has made very plain. He wants the Vice President to go South to investigate the civil rights problem of Negroes, including the lack of compliance with Supreme Court integration decisions and intimidation against Negroes in some areas to prevent them from voting.

WHEN President Eisenhower declined, after his triumphal reelection, to go South to make a major speech on civil rights, as King and other Negro ministers invited him to do, the Montgomery minister twice sent invitations to the Vice President to come South and make a survey there as he had done of the Hungarian refugee situation from Austria.

Both invitations were ignored.

## Ike and Mac Have Many Things To Discuss

WASHINGTON — (NEA) — Any advance experting on the March 20-23 Bermuda conference between President Eisenhower and British Prime Minister Harold Macmillan necessarily involves a certain amount of thumb-sucking, even by experts.

For the fundamental fact is that there is no official list of subjects the two leaders will talk about agreed to in advance.

They aren't going to "negotiate" on any real or imagined differences of opinion between American and British governments. There will be no new U.S.-U.K. pact announced at the end.

PRINCIPAL reason for this lack of agenda is that the situation in the Middle East is changing so rapidly. An agenda prepared yesterday would be no good tomorrow.

What Ike and Mac are said to want at Bermuda is complete

freedom to talk about any and all current world problems.

The informal nature of this conference and its routine character are stressed by the technical experts preparing the working, background papers for the meeting. Most of these experts won't even be there. Not more than a dozen top people from each side will be present at full sessions.

There will be no horseshoe table—no formal, prepared speeches.

Eisenhower and Macmillan, Secretary of State John Foster Dulles and British Foreign Secretary Selwyn Lloyd are expected to do most of the talking.

Top defense, treasury and trade officials will not be present. This emphasizes that Bermuda will be a political meeting—not an economic one.

EISENHOWER and Macmillan are old friends, dating back to

commemorative of the 1847-48 Hungarian revolution.

If Vice President Nixon should prefer not to involve himself and the Administration by a personal visit to the South, he could instead point out how the Administration is sponsoring a civil rights program in Congress, which, moderate as it is, seeks to protect the Negro's right of franchise in the South.

THE NEGRO minister first had the happy thought of getting the Vice President to go to the South when he read about Mr. Nixon's trip to Austria to investigate the refugee problem of Hungarians fleeing from Russian tyranny.

That survey, you will recall, resulted in increasing the number of Hungarian refugees admitted to this country.

Afterward, the Vice President embarked on his second and longer good-will tour to Africa, with his first stop at Accra to represent the President at the birth of the new Negro nation of Ghana.

There are simple precedents for our Presidents and Vice Presidents to visit among our people to find out about pressing problems. Most recent was Eisenhower's visit to the drought-stricken areas of the Southwest where he consulted with the people there about their difficulties.

That is basically an economic problem. The Vice President, should he go South, would be concerned with the problem of human rights and human dignity, first and foremost, and secondarily with economic rights affected by depriving Negroes of their jobs.

## Glancing Sideways

NEW YORK—There's no telling what the things are worth. Like as not they used to throw them away when a wallpaper pattern became out of style or obsolete. But they are cylinders of carved wood once used to print wallpaper. And here they are in a store window made up into lamps with metal bases.

What does a discarded wallpaper print roller come to when you put a base and a raw linen shade on it and run a wire through it? Why, it comes to \$55 per table lamp, which may or may not be high for the item, since you don't know where to start pricing it by item. If some smart decorator picked up several hundred of them from a discard pile at a penny or so each, then it's high.

This is a store with six out-of-town branch stores, not counting the big store in New York, and the placard in the window says all seven outlets have these lamps. That means at least several hundred rollers and the buyer must have gotten them for next to nothing.

ON ODD, VACANT brick buildings, waiting patiently for the wreckers to claw them down so that skyscrapers may rise on the land, you see the first garish circus posters, but this time there is a difference: two circuses are advertising their marvels.

John Ringling North won't have things all his way in Manhattan any more. He may still be king of the gourmets, the nattiest dresser since Jimmy Walker, but he isn't sole king of the circuses any more. Another outfit is coming in to challenge him.

It may be fun to watch; or it may be nothing. It depends on how seriously North takes the rivalry. Maybe they can pit lions or elephants against each other. Or maybe something as lame and dull as box office receipts.

OVER BY FIFTH Avenue you watch the derricks, tall floors up in the sky and anchored to steel, letting down their cables to snag up another load of metal beams. In the street a long truck, loaded with the beams, stands while workers sling cables around the beams and prepare them for hoisting. In the street two men with red flags stand ready to divert traffic from the area.

No load of steel beams ever has crashed down into traffic from 30 stories up, but it could happen and they take no chances.

## Peter, Poetry And Picnic

NEW YORK — The way to keep a romance bouncing is to give it a bumpy road.

Funny that today's parents don't seem to be remembering that.

I refer, of course, to the yearning of 1930's youths to "go steady" — and the determination of their elders to forbid it. Go out and have fun, they tell the kids, date a variety of friends. Live it up, cause you're only young once.

THIS ADVICE is getting results. Exactly the kind of results which any thinking adult might anticipate. Under orders to stop being monogamous in the moonlight, young couples are clinging even more desperately to one another, either clandestinely or with open defiance.

Are parents these days so wrapped up in the present problems that they can't remember how it felt to be forbidden to attend a certain movie, read a special book, see a particular person? Fired up by a taboo, a mild wanting becomes a wild craving, and a puppy love can turn into a monstrous infatuation.

The logical explanation of why today's parents don't understand their teen-age offspring's yearnings for steady, one-man or one-woman relationships, is that today's parents were teen-agers in either the fickle-fun-loving 'twenties, or the financially flat 'thirties.

IN THE FLAPPER days, there was too much action for a man or a woman to want to be tied down to one. The mothers and fathers of 1920's teens might well have been delighted to observe an offspring going steady. Or even walking steady, for that matter.

In the 1930's, youth was so strapped for funds that there was not much thought of marrying at an early age. So steady dating of one person was not only inappropriate but virtually impossible — it being difficult to keep a very young lady in love on a movie a week, even with popcorn.

Now that they are settled down, these parents look back fondly on the days when they dated a variety of young things of the opposite sex; the women recall the promise, the men recall the park benches, and they can't comprehend why their Mary is so serious, so early, about a boy with freckles named Arthur.

WELL, NOBODY knows for certain what makes the junior Romans of today want their Julias and none other, and vice versa. Maybe it's because there is more money to be had, and marriage seems accessible at an early age certainly the marital age has dropped rapidly in the past few years.

Probably a great deal of the craving for a "steady" can be blamed upon — or credited to —

ces. A load of beams falling 300 feet could cause considerable havoc and a sudden rise in the mortality figures, as well.

TWO BLOCKS away, on Park Avenue, the steel is all up and sewed together and now the bronze spandrels and green glass windows are going in, floor by floor. When finished this building, erected by a distiller, will be all glass and bronze, the first bronze structure in New York.

Out in front a billboard lists the 51 corporations and firms which contributed, in one way or another, to the structure: wiremen, heaters, glaziers, metal erectors, air-conditioners, painters, terrazzo floorers, masons and so on, including the elevator installers.

It takes a gigantic pooling of skills to put a skyscraper together and to plan it all so that not one artisan is ever in the way of another and they all get through at about the same time.

THREE BLOCKS down Park Avenue the Waldorf-Astoria is undergoing change. The telephone company will spend \$175,000 and the hotel another \$75,000 to install dial telephones in the guest rooms so that guests may dial local and long-distance calls from the rooms without having to go through a busy, often jammed switchboard downstairs. Inside, the riggers and installers are crawling up and down corridors and changing wires and handsets.

AT 47TH STREET, three men who look authoritative and executive stand dead in the center of Park Avenue looking up at and across the length and breadth of the Grand Central Terminal Building. Are they considering tearing it down to erect there a super-skyscraper?

The rumors are that such a thing will be done and all that is holding up the matter is the problem of a flood of traffic and humanity twice a day in a tight closed area. Conditions are bad enough now, but a super-building would clog adjacent side streets at 9 a.m. and 5 p.m.

You decide to go down the ramps into the Oyster Bar and have some shrimp soup, divesting your mind of all these colossal and their meanings. The soup is hot and tasty and you sit there relaxed, reading a pocket magazine.

## Reporter's Notebook

NEW YORK—Ruth Handler will make more money with guns this year than Jesse James did in his whole life.

Mrs. Handler, top woman executive in the nation's billion dollar toy industry, says the top toys of 1957 will be guns.

The result: More toy guns—up to 13 million—will probably be sold by next Christmas than dolls.

"Little girls love guns, too," said Mrs. Handler. "They get upset if told they can't have them. They even steal them from their little brothers."

MRS. HANDLER, a onetime secretary, and her husband, Elliot, a former artist, are known as "the quiz kids" of the toy trade.

In 1944 they were earning a bare living making plastic jewelry. Then they started turning out plastic toy furniture, and grossed \$100,000 the first year.

Ellot turned out to have a natural genius for creating novel toys that caught the fancy of children.

Ruth showed a remarkable talent for solving production problems and marketing the toys. Their firm now has up to 1,000 employees in peak season at its Los Angeles plant.

"We started on a shoestring," said Ruth, a dark-haired, vivacious woman who has two children herself. "But it takes more than a shoestring to keep going."

"You have to keep a step ahead of the rest, and be able to sense trends in advance. My husband has a sixth sense in this respect. He's a great idea man."

"Research is of great importance. Designing a good toy requires, in my opinion, a better quality of engineering than that required to do national defense work. And I think I know. We've done some defense work."

SOME manufacturers carry lines of 200 or even 300 toys. The Handlers concentrate on no more than 20 or 25, including about five new ones each year.

Mrs. Handler has found no conflicts in being her husband's business as well as marital partner.

"Everybody reports to me but him," she said smiling. "I report to him. He's my boss."

"We lead two separate lives—a business life" during the day, a married life in the evenings—and we're happy in both lives.

"We're together 24 hours a day, and don't get on each other's nerves. We're very lucky people."

## Washington Scene

WASHINGTON — When the Republican National Chairman Meade ALCORN announced the other day that he was holding his first press conference, we leaped to the conclusion that it was for the Washington political writers. But when we got there we weren't so sure. He sounded as if he thought he was talking to grazing and pasturage editors.

Either he didn't notice, or didn't care, that we were dressed in slick city clothes and practically reeked of an urban air, because his very first words were about grassroots. He grassrooted along for almost an hour until I began to feel like a hog rooting for truffles.

He said he was going to the grassroots to get grassroots opinions. That does not go down with a polished cosmopolitan like me. I do not care what opinions a grassroot may hold. Who wants an opinionated grassroot?

THE NEW GOP leader told us he was going to do his grassrooting in Omaha, Neb.; Providence, R. I.; Salt Lake City, Utah; Louisville, Ky.; Cincinnati, O.; and Trenton, N. J.

I do not know how those centers of metropolitan culture feel about it, but I shouldn't think they'd feel like rooting. I was in downtown Omaha, Cincinnati, or Trenton, and a stranger came up to me and said he wanted my grassroots opinion for the Republicans. I think I would be tempted to root him with a look and turn Democrat. It's enough to make a city dweller plow up his front lawn and plant rutabagas.

Some of my colleagues did not get quite so exercised as I did over the grassrooting. Maybe they even liked it, because one man's meade can be another man's alcorn. But it was cumulative with me. I felt that I had finally taken too much grassrootage.

THERE IS A disposition to blame the original coinage upon the late Senator Albert Jeremiah Beveridge, of Indiana, possibly because he is dead and can't defend himself. He is supposed to have launched the national orgy of grassrooting in his address as temporary chairman of the Bull Moose convention in Chicago, Aug. 5, 1912, when he thundered:

"This party comes from the grassroots. It has grown from the soil of the people's hard necessities."

But I suspect it predated him by thousands of years. I think Beveridge lifted it from an old book, from which most quotations are taken, named Iliad.

THE REPUBLICAN chairman said that in addition to rooting for opinions in the grass in our leading cities he is going to beat these cosmopolitan grasslands for "attractive candidates." We perked up at this because we don't see too many political beauties. But Mr. Alcorn said he did not necessarily mean beauty contest eligibles.

We worked him over, trying to break him down as to what he meant by "attractive," but about all we were able to force out of him is that his idea of an attractive candidate is one who can get elected.

I am not disposed to argue this with him any further, but I will say that I have seen some very unattractive attractive candidates—and, if you don't think so, just send for the new pocket directory which carries the pictures of all the members of the 83rd Congress.

The U. S. Government Printing Office, which makes no special play for the sex trade, publishes it.

The Board of Directors of Central YMCA has voted to go in the County United Fund Inc., joining the Salvation Army as the another Community Chest Agency to affiliate in the one-drive movement.

Details of the agreement, it was explained, are to be worked out between officials of the Red Feather agency and the United Fund in the near future.

Directors of the Associated Charities held a lengthy meeting yesterday to discuss an invitation extended by the United Fund. A committee was named to meet this afternoon to draft a reply.

No report was given of the board's action except that it "agreed in principle" with the United Fund plan.

The Salvation Army announced Monday night it was affiliating with the new fund raising plan and pledged full cooperation.

Compliance with the city's garbage collection regulations has up- been urged as the result of a number of complaints received at the Health Department office.

Trouble has been encountered in recent weeks, officials said, when garbage was placed outside too early, and when it was put in paper containers.

Many of the containers placed on the curb in early afternoon, and without covers, have been knocked over and their contents spilled on the streets.

Garbage collectors are not allowed to pick up garbage in paper containers. Experience has shown that even a little dampness is enough to loosen the glue and allow the contents to fall into the

street as paper boxes are picked placed in suitable baskets, and paper and cardboard boxes must be folded and placed in bundles and tied with stout cord.

Garbage and ashes should be placed in metal containers with close-fitting metal tops. The containers must hold not more than 40 pounds. They should be put out after sundown on collection nights.

# He Was Almost Too Versatile

GLADEWATER, Texas—(INS) —H. I. McAfee, city secretary of Gladewater, is a versatile man.

Only one fireman was at the station when a call came, so McAfee manned the driver's seat and drove the truck at a record speed.

Meantime, the fire department siren continued to wail, because no one at the municipal building knew how to stop it. A message to McAfee brought him back in a hurry, and he stopped the noise which by that time had aroused fears of many citizens that there had been a catastrophe.

Shame!

OKLAHOMA CITY (S) — Oklahoma tax payers, who have been called down by the state Tax Commission for errors, are getting a chance to get even this year. The tax form came out listing a "space for signature."

**You can't buy a bigger station wagon anywhere...at any price!**

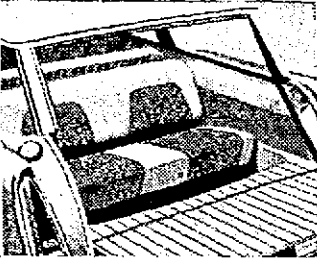

Yet, this smooth-riding Plymouth Suburban is still in the low-price 3

There isn't a single station wagon built that's bigger than the new Plymouth.

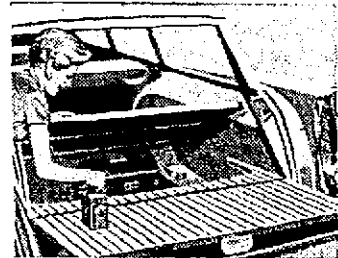

We're not just talking about the low-price 3, though Plymouth has the biggest in the lowest-price range. We mean all station wagons...low-price, medium-price, right on up to the so-called "big" luxury wagons. You can't buy bigger than Plymouth no matter how much you spend!

So why spend more—and settle for less? Especially when Plymouth offers you the magic smoothness of velvety Torsion-Aire Ride...Push-Button Driving...Total-Contact Brakes...Flight-Sweep Styling...and the power-for-safety of up to 290 hp.

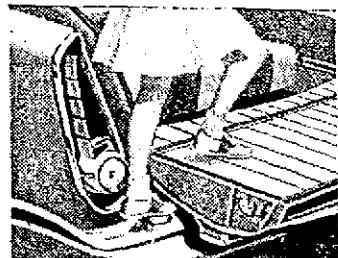

There's none bigger...and when you actually drive a Suburban you'll agree there's none better! See for yourself!

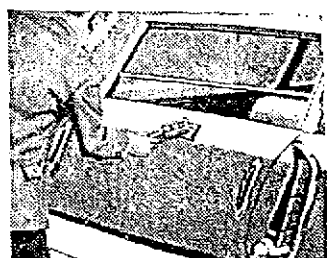

**New Observation Seat.**  
Available in all 9-passenger Suburban models. Folds flush into floor for extra cargo space.

**Hidden luggage compartment.**  
Locked space for safe, out-of-sight storage of luggage and valuables. On 6-passenger models.

**Comfort steps on both sides of tailgate.**  
Specially designed to make it so easy to get in and out of the new Observation Seat.

**Disappearing rear window.**  
Rolls down into tailgate. Locks securely from inside. Electrically controlled on all 9-passenger models.

## Octogenarian Makes Long Trips By Car

PONTIAC, Mich. (INS) — William S. Posthumus of Pontiac, Mich., is a man who likes to drive. In fact, he has driven more than 300,000 miles in the past 40 years.

Posthumus recently completed a 6,400-mile trip down to Mexico City. The amazing fact is that Posthumus is 80 years old — and he made the trip alone!

During his 40 years of driving, Posthumus has never been involved in an accident and has never received a traffic ticket.

Born in Holland, Mich., Dec. 14, 1856, Posthumus was a carpet salesman in Pontiac for 20 years before his retirement several years ago.

Actually, the spry old gent hasn't retired. He still repairs and reweaves carpets and also is manager of a Pontiac apartment house.

Every year, Posthumus likes to travel up to northern Michigan and fish and live outdoors. However, last year he decided to drive out to California alone—a 7,500-mile trip.

This year the straight-backed octogenarian decided he would like to see what Mexico was like. So he packed up his gear and drove off.

Before leaving, however, he talked it over with his doctor who gave him the green light for his trip. Posthumus said:

"The doc said I could go, provided I didn't tire myself. I probably could have made the trip much faster, but I guess when you reach my age, it doesn't matter if you take a little longer getting there."

Armed with road maps from the Automobile Club of Michigan, Posthumus made his way down to Mexico City, driving only eight hours a day for an average of 360 miles.

## Business Briefs...

NEW YORK — (INS) — U.S. Steel Corp. income for 1936 was \$348.1 million, a return of 8.2 per cent on sales, compared with \$370.1 million or 9.0 per cent in 1935. The annual report showed today that the corporation's annual capacity as of January 1 increased to 39.6 million net tons of ingots and castings, or 29.7 per cent of that reported by the whole steel industry.

LESTER, Pa. — (INS) — Robert C. Twombly, manager of the small turbine department of the Westinghouse Steam Division, announced today a major re-arrangement program which will increase substantially production capacity for small turbines. The program, to take two years to complete, involves use of additional buildings, extensive purchases of new tools and equipment, and a complete revision of the manufacturing flow for small turbines and related equipment.

## He Was Pulling The Wrong Leg

RAYMOND, Wash. — (INS) — William Wiesler, first aid instructor, was chagrined when he found himself unable to locate an artery pressure point for the lower leg after he had called a man out of an audience in order to demonstrate that very point.

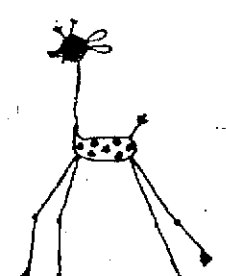

He was beginning to get desperate when roars of laughter from other persons in the crowd tipped him off to what was wrong. "Forty-one guys there," he muttered, "and I have to pick the only one with an artificial leg!"

PRR Profits Soar Despite Month Strike

PHILADELPHIA (U)—The Pennsylvania Railroad earned profits of more than \$11 million dollars in 1956, despite a month-long steel strike and higher costs. The profits were the highest since 1945.

PRR President James M. Symes, in the railroad's annual statement issued yesterday, said the line earned \$11,545,435 in 1956, compared with \$11,183,533 in 1955. Earnings per share for 1956 were \$3.15 compared with \$3.12 the previous year.

Symes said net operating revenues were \$991,107,116, a gain of \$6 millions over 1955.

"Under ordinary circumstances this would not be a good comparison, but the fact that the \$11 million dollar net was produced despite a 34-day steel strike and a new wave of inflation following its settlement, makes it a more creditable showing," Symes declared.

Symes said the PRR's best recent year was 1945, when it earned over \$3 million dollars. He added that the railroad is hoping to increase revenues and profits this year.

"We are currently requesting permission to increase freight rates, express rates, passenger fares and mail pay," he said.

Council Aims Legislation

The Mayor and Council held brief discussions Monday on two legislative matters which affect the city.

City Attorney Thomas B. Finan called attention to House Bill 755 which would amend the state constitution to permit enabling legislation to set up redevelopment authorities similar to that in Baltimore. He said the measure was up for consideration but not passed four years ago. Del. George Hughes (R-Allegany), House minority leader, is one of the bill's sponsors.

Finan urged that council consider approving a resolution favoring the bill.

City Auditor Arthur B. Gibson questioned whether the proposed juvenile court bill which raises it to the status of Circuit Court will relieve the city of financial participation. The city presently pays part of the juvenile magistrate's salary. Gibson said the city should get away from any charge if possible.

Finance Commissioner John J. Long said the city should get a copy of the bill to determine what the city's status is in the matter.

John Adams was the first president to occupy the White House at Washington, D. C.

President John Tyler was the father of fourteen children.

Scholarship Tests Slated April 13 At Allegany Hi

Seniors and graduates of public and parochial high schools of Allegany County will be given an opportunity to take a competitive examination Saturday, April 13, at 10 a. m. at Allegany High School for the Senatorial and Teacher Education Scholarships.

Richard T. Rizer, assistant superintendent of county public schools, announced yesterday any eligible person who desires to take the examination for either scholarship must submit an application to the nearest high school principal, who will forward it to the State Department of Education at Baltimore by Friday.

Senatorial Scholarships are available for Allegany County students to: Western Maryland College, one for either a boy or girl; Washington College, full scholarship including tuition, room and board and books; St. John's College, full scholarship; Johns Hopkins University, one engineering scholarship for the county and two engineering scholarships on a state-wide basis; eight scholarships in arts and sciences or business on a state-wide basis, with all scholarships to the university open to men only.

Maryland Institute of Arts, one scholarship for evening or Saturday school courses; St. Mary's Seminary Junior College, one scholarship open to Allegany County girl; University of Maryland, one four-year scholarship worth \$165 per year for boy or girl.

Hood College, no scholarship open this year. However, since occasional unexpected vacancies can and do occur it is advisable for all girls who are interested in a Senatorial scholarship for this college to take the test and have their score filed at the institution. When open the scholarship is worth \$1,650 a year.

In addition to the Senatorial Scholarships the 1956 session of the Maryland General Assembly enacted legislation which will provide 608 four-year scholarships for prospective public school teachers in Maryland which will be given over a period of four years.

The number of scholarships available to Allegany County each year is seven. The recipient of these scholarships may attend any Maryland College approved by the State Department of Education.

The list of institutions may be obtained from high school principals. Since the scholarships are created to prepare teachers, each recipient must give bond that he will teach in the public schools of Maryland at least two years.

Any high school graduate or June, 1957 graduate is eligible to compete for these teacher scholarships provided he is a legal resident of the legislative district from which the scholarship is awarded.

Any persons already in college may take only the Senatorial Scholarship examination.

But Wouldn't The Papers Get Wet?

LONDON—(INS)—There's a real shortage of manpower in Britain today, and a recent help wanted ad acknowledged the situation this way:

"Wanted—octopus with knowledge of shorthand-typing and bookkeeping. General Electronics, 123 Portobello Road, London, W. 11."

RECORDS OF BARBED WIRE COMPANY TELL WESTERN HISTORY

LARAMIE, Wyo. — (INS) — The story of barbed wire, the spiky strands of metal that changed the American West's course of history, has found an archive.

The records of the Isaac L. Ellwood Barbed Wire Mfg. Co. have been given to the Western History Department of the University of Wyoming by Mrs. E. P. Ellwood of Dekalb, Ill.

Archivist Gene Gresley termed it one of the most important collections ever received by the school. He added it would be hard to exaggerate the effect barbed wire had upon the American West and the cattle industry.

Once cattlemen accepted the spiked wire, there was a great rush to fence the open range. Barbed wire production jumped from five tons in 1874 to 200,000 tons in 1900.

The change from an open to a closed range prompted a revolution in the social and economic structure of the West. Conflicts erupted between cowmen and settlers, and the cattlemen conducted their own fencing feuds.

The appearance of the "wire" signaled the disappearance of the cattle kingdoms and stock farming became the dominant occupation.

Gresley said the Ellwood firm's role in the changing of the West is recorded in 15 letter file boxes, 75 letter press books, 60 ledgers and a large amount of unclassified correspondence.

## Aid Planned For Staffers Of Companies

Chamber Commerce To Help Locate Homes Will Locate Homes

The Cumberland Chamber of Commerce is activating its file of homes and apartments for rent to help staffers of area industrial plants get located here.

The file will be made available to executives of the plants so they can secure temporary quarters while they are deciding where they will buy or build.

Virtually all of the plant executives who are transferred to the Cumberland area plants have homes in the communities in which they have been living, and want to find temporary quarters while they are disposing of their homes and are making arrangements for permanent quarters near their new posts.

The Chamber said the need for rental homes, or apartments with several bedrooms, is acute in the Cumberland metropolitan area, adding that only two of 15 men transferred to one plant several weeks ago have been able to find a home or apartment.

Most of the plant executives, it was explained, want to become acquainted with the area and its resources before making a permanent investment in a home.

Those who have homes or apartments for rent were urged to call, or preferably to write to the Chamber, giving full details of the available accommodations. The Chamber compiled a similar list when construction of the Pittsburgh Plate Glass Company plant began, but that list has been exhausted for some time.

## Officials Air Plans For 4-H Summer Camp

Plans for the Tri-County Boys 4-H Club summer camping trip to the Pleasant Valley recreation area in Garrett County were discussed at a meeting yesterday in the office of Joseph M. Sleight, Allegheny County farm agent. The camp will be held this year during the week of July 7-13. Last year, approximately 80 youths from Allegheny, Garrett and Washington counties attended the camp. Attending the discussion were James B. Arnold, assistant to Stedman Merritt Pope, assistant Washington County agent; Ray Cassell, assistant state 4-H Club agent; W. Sherard Wilson, state agent, and James McHenry, assistant Garrett County agent.

## Area Industry, Firemen Groups Attend Courses

A delegation from local and area industrial plants and volunteer fire companies will attend the sixth annual Short Course for Fire Inspectors April 2-5 at College Park.

The course will be conducted in the Fire Extension Service building at the University of Maryland and is being co-sponsored by the Extension Service and the State Fire Marshal's office.

On Wednesday afternoon, April 3, John J. Long, director of safety and plant protection at the local plant of the Pittsburgh Plate Glass Company at North Branch will lead a discussion on welding and cutting.

Other speakers will be from the Maryland State Volunteer Firemen's Association, State Fire Marshal's office and Extension Service.

Other fire protection and safety measures will be discussed including electricity, flammable liquids, air conditioning, building pipes, watchmen supervisory and alarm systems, fire extinguishers and sprinkler equipment.

Robert C. Byrns, director of the Extension Service, will be in charge, and said pocket cards will be issued to those attending. All interested persons are welcome to attend.

## Meeting Set On Bridge Use

A meeting will be held Friday between officials of the Cumberland Cement and Supply Company and Allegheny County Board of Commissioners concerning the transportation of heavy equipment and machinery across the Locust Grove Bridge in the Narrows.

A letter from G. A. Diehl, secretary of the company, said the company is planning to improve its glass sand raising operation and this will require moving in heavy equipment across the bridge.

The bridge is posted for a 20,000 pound maximum load limit at present. Diehl said the company has had an independent structural analysis made of the bridge and believe it could safely carry the loads of equipment and machinery.

The commissioners said one of the first considerations is the exact data concerning the bridge's strength and the convenience of the residents of the Locust Grove area who use the bridge daily. The structure crosses Williams Creek and was recently improved with steel decking and stringers as well as a metal guard rail.

## Pryne Firm Becomes Emerson Electric Subsidiary

Pryne and Company, Inc., which operates factories in Keyser and Pomona, Calif., will become a wholly-owned subsidiary of Emerson Electric Manufacturing Company of St. Louis, Mo.

Announcement was made jointly yesterday by Ralph Pryne, chairman of the board, and W. R. Persons, president of Emerson Electric.

The Pryne organization will remain intact and will be enlarged by Emerson Electric products, which are identified with the building field.

Emerson Electric was founded in 1890 and has been a pioneer and a major producer in the field of electric fans and electric motors. Currently its commercial products include a variety of special and general purpose electric motors, electric fans, air conditioners, are welders, bench saws and electric heaters.

In addition, Emerson Electric has a strong electronics and aviation division which is engaged in research, development and production of complex electronic systems, missiles and aircraft structures for national defense. It has factories in St. Louis, Washington Park, Ill., and Paragould, Arkansas.

Ralph Pryne will remain active in the firm. It is expected that he will be chairman of the new Pryne board. He anticipates gradual retirement over a five-year period, with an additional five years in an advisory and consulting capacity. Edward F. Kelly, president, and Phillip D. Pryne, vice president-treasurer of Pryne & Co., Inc., are expected to be members of the new Pryne board. Richard V. Burns will continue as vice president of Pryne in charge of the subsidiary's manufacturing.

"By pooling organizations and resources," Ralph Pryne said, "Pryne and Emerson will have a large, strong company serving the building field. Emerson realizes the importance of Pacific Coast facilities for its air conditioning and electric heater lines, as well as for Emerson commercial motor manufacturers in the commercial and industrial exhaust fan line. It is strong in the present lines."

Consequently, I anticipate considerable development of Pacific Coast facilities. The new arrangement of air conditioning. This will increase the base of electronic and missile fields, and plants on the Atlantic Coast, in operations for the Pryne sales force in particular.

"With the resources of a multi-million-dollar company behind headquarters for Pryne operations, the present Pryne executives are enthusiastic about the future prospects of the Pryne operation as a part of Emerson Electric," Mr. Pryne further commented. "Emerson Electric 1950s. In the meantime, they be greatly accentuated production and industrial exhaust fan line. It is strong in the present lines."

United States Senator W. Stuart Symington of Missouri was president and board chairman of Emerson Electric between 1938 and 1945.

Evangelistic Series Starts

REV. CLAUDE W. JONES

A series of evangelistic services will begin tonight at the First Church of the Nazarene, according to Rev. H. E. Heckert, pastor, who said the services will continue through Sunday, March 31, daily at 7:30 p. m.

The evangelist will be Rev. Claude W. Jones, of Bel Air, who recently re-entered the field of full-time evangelism.

A native of North Carolina, Rev. Mr. Jones has preached throughout the eastern section of the country. His first pastorate in 1937, was at Onega, W. Va., and he later served as pastor of churches at Wilmington, Del., and East Rockaway, N. Y., and Ephrata, Pa.

Incoherent? Yes; Incapable? No!

TORQUAY, England.—(INS)—Harry Munn, a fairground worker, may have been drunk but he was not as "incapable" as the police alleged.

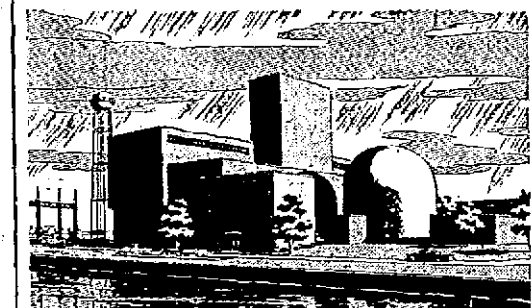

He bent the half-inch thick steel door of the cell in the police station out of shape.

He was fined \$1.40.

Entica Fermi atomic power plant is under way near Detroit through the joint efforts of 18 electric companies. A group of equipment manufacturers and the Atomic Energy Commission are also associated in the project.

Dresden, Illinois, plant is being developed by 12 New England electric companies. Equipment manufacturers and AEC are participating.

What will atomic-electric power plants look like?

Among the atomic-electric power plants now under way, three will look like the drawings above.

Although they appear somewhat alike, each involves different methods, different materials, a different type of atomic reactor or "furnace." That's because the electric companies, the equipment manufacturers and the U. S. Atomic Energy Commission—who are all participating in atomic development—are searching for the best ways to produce electricity, using atomic energy as fuel.

The development of atomic-powered electric plants is the latest stage in bringing plentiful electricity to America. You can be sure that electric company skills and experience, acquired in 75 years of service, are being applied to this great new job.

Heart Fund Drive Tops Area Quota

A total of \$17,043.17 was collected in the fund campaign of the Allegany-Garrett County Heart Association, according to James W. Bishop, drive chairman, who said the amount was \$1,023.17 in excess of the quota.

Pointing out that every worker should be lauded for making the campaign a success, Bishop in particular singled out the Heart Sunday solicitation for commendation. The setup arranged by Mrs. Ralph Iseninger, chairman, set a record one-day collection, Bishop said.

Heart Sunday contributions totaled \$9,623.63, or almost 57 percent of the total raised. Actual collections on Heart Sunday were \$9,915.74, plus \$707.35 received in the mail as a result of envelopes left at homes by Heart Sunday volunteers when householders were out.

Bishop also praised the work of Thomas P. Conlon Jr., who headed the Business Group solicitation. His teams were made up largely of local life insurance men, Bishop noted, and they collected \$1,769.49, or twice as much as this division raised last year.

Individual contributions amounted to \$504.23. Professional division accounted for \$237. Clubs and organizations, including beneficiaries sponsored by them as well as their own gifts, totaled \$1,200.55.

Employee charity funds from local industries and businesses accounted for \$2,006.81. Plastic Heart containers accounted for \$381.95; Memorial amount for \$662.25; Designated funds which include gifts from the county and municipalities amount to \$647; and miscellaneous collections are listed as \$1.78.

Of the grand total Garrett County accounted for \$1,930.51. This was received from two divisions. Northern Garrett which includes Grantsville, Jennings, Friendsville and Accident, under the chairmanship of Mrs. Irva Mickey and Mrs. Harry C. Edwards, accounted for \$459.59. Their final report shows Civic organizations, \$63.65; churches \$139.87; business firms, \$15; plastic hearts, \$44.07; Heart Sunday - Grantsville, \$88; Jennings, \$29.60; Friendsville, \$16.73; and Accident, \$25.57, or a total of \$182.90, and Heart Sunday mail accounted for \$4.

Mrs. Mickey and Mrs. Edwards said the Plastic Heart collections were under the supervision of the American Legion with D. W. Hershberger as chairman. Hershberger also made the business solicitation and Mrs. Edwards had charge of organizations. Mrs. Mickey and Mrs. Edwards combined in the Heart Sunday effort.

Southern Garrett, which includes Oakland, Deer Park, Mt. Lake Park, Kitzmiller and a number of other communities, was under the chairmanship of Mrs. Irvin Field of Oakland. She reported a total of \$1,485.92 as follows: Heart Sunday \$910.46; Heart Sunday mail, \$20; business firms, \$310; organizations, \$143; county commissioners, \$25; plastic hearts, \$47.96 and individual gifts, \$29.50.

Youths Given Parole Terms

Two local youths, ages 10 and 11, yesterday afternoon were found guilty of being delinquent minors after being arrested for the breaking and entering and burglary of a grocery store last week.

Magistrate Morris Baron suspended a sentence to the Maryland Training School for Boys in the case of the older lad and placed him under the supervision of Capt. Daniel K. Biggs, commanding officer of the Salvation Army Citadel.

The 10-year-old boy was placed on probation for six months as this was his first offense, Magistrate Baron stated.

The magistrate commanded both boys to be of general good behavior, improve their school marks, stay at home on school nights unless in the company of their parents, and to attend Sunday School.

Juvenile Court officials said the older boy had a record of several offenses and Magistrate Baron placed him under the supervision of Capt. Biggs who said he believed he could help the lad straighten out.

The two boys broke a pane of glass in a window of the Guido Brothers grocery store at 202 Paca Street last week and took about \$36 in cash, four cartons of cigarettes, four boxes of cookies and a carton of book matches.

They were apprehended the next day and \$33.55 and all the merchandise was recovered.

Red Cross Motor Corps Reorganizes

A reorganizational meeting of the Volunteer Motor Corps of the Allegany County Red Cross Chapter will be held Friday at 1:30 p. m. in the chapter's office in the Post Office Building.

Mrs. Holmes Cessna, chairman of the corps for the past five years, said a number of prospective members who are interested in joining the corps plan to attend the meeting to be oriented in the organization's setup.

They are Mrs. Simon Rosenbaum, Mrs. M. J. Andrews, Mrs. Norman F. Geatz, Mrs. John Moberly, Mrs. Harold V. Sebra, Mrs. Norman Kline, Mrs. D. C. Goodfellow, Mrs. George Halvey, Mrs. Edward Zucker, and Mrs. Harold Waingold, of Cumberland and Mrs. Beverly Streeter, of Mt. Savage.

Mrs. Cessna said letters have been sent to members who were active during World War II but have become inactive since.

Members of the corps are instructed in first aid, motor mechanics as well as traffic safety which is usually explained by a Maryland State Policeman.

Upon completion of the necessary phases of the course the members are given certificates denoting their qualification.

The Motor Corps engages in emergency work of the Red Cross including the transporting of blood from the blood center in Johnstown to local hospitals.

Man, 100, Once Had Brush With Big Chief

RUSHVILLE, Ill.—A man who once had a brush with Crazy Horse, chief of the Sioux Indian nation, now is in his 100th year.

Joseph Estes says he was on a wagon train that operated between Cheyenne and Deadwood, Wyo. Crazy Horse, another Indian and an interpreter rode toward Estes' outfit.

"Crazy Horse told us not to fire any guns or cause any trouble and we wouldn't be hurt. Then he and his Indians took off and we got through all right."

Estes attributes his longevity to peppermint candy and the fact that he "has taken care of himself."

The Twelfth Amendment to the U. S. Constitution prevents a tie vote for president.

Your Horoscope

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Thursday, March 21, 1957

MARCH 21 to APRIL 20 (Aries)—Some unusual influences prevailing should encourage vigorous matters; military, naval and government interests generally; promote mental alertness.

APRIL 21 to MAY 21 (Taurus)—Purely personal desires may have to take a back seat now as that you can accomplish the really big jobs especially sponsored now. Don't waste time or energy. Undertake all tasks with faith.

MAY 22 to JUNE 21 (Gemini)—Your Mercury is one of the auspiciously placed planets this inspiring day. Mental alertness, creative ideas and the courage to attack difficult tasks and problems are indicated. Faith.

JUNE 22 to JULY 21 (Cancer)—Your Moon suggests that you forget personal desires and work with courage and faith for matters of more general scope. Grand influences for all honorable endeavors.

JULY 22 to AUGUST 21 (Leo)—If you are sensibly cautious, avoiding recklessness, you bright, enthusiastic looks should gain considerably in bold new ventures and in your regular work. Study, mental work encouraged, too.

AUGUST 22 to SEPTEMBER 21 (Virgo)—No doubts or worrying. The positions of Mercury, Mars and Uranus indicate a period for new tries, inventions, methods to better your present and future security. Cooperative.

SEPTEMBER 22 to OCTOBER 21 (Libra)—Speed up action to high attainment but do not be careless or overtax yourself. It's important to keep promises, appointments on time.

OCTOBER 22 to NOVEMBER 21 (Scorpio)—Good influences should help you in the hardest tasks, in new undertakings and in matters of vast scope. Don't reject sound suggestions; valuable advice.

NOVEMBER 22 to DECEMBER 21 (Sagittarius)—Include in day's "must" stability of purpose, directness of action and patience. Aspects are mostly favorable but day agents astute management, a keen discernment of values.

DECEMBER 22 to JANUARY 21 (Capricorn)—Let there be no discord within yourself or with associates, employers, employees. It pays to be discriminating but not peevish. Overlook trifles in the interests of more important matters.

JANUARY 22 to FEBRUARY 21 (Aquarius)—Follow advice to Sagittarius for best results today. Recognize advantage points; work from them quickly, directly. You can find many offerings of value, but it's what you do with them that will count.

FEBRUARY 22 to MARCH 21 (Pisces)—Be as cognizant of "little" values as of bigger ones. Neptune and Uranus in fine configurations, should be helpful, inspiring for your talents, capabilities, fine ambitions.

YOU BORN TODAY are on the turn of Pisces to Aries and therefore have a most interesting combination of characteristics and possibilities. You may have to be urged from within, or by loved ones, to make the most of your assets so that they may bear fruit. You have no intricate or complex tendencies to rope with but you need a true understanding and appreciation of your own gifts and how to use them DAILY. You have ambition tempered with serenity and sufficient caution to counteract impulsiveness. Don't react your own fine ideas because of fear of failure. Seek God's guidance; carry on!

Pair Indicted On Five Counts In Bank Holdup

BALTIMORE—Five charges have been returned by a federal grand jury here against two young Pennsylvanians accused of holding up the Union Mills branch of the Westminster Trust Co., last Feb. 5 and escaping with \$7,010.

Charged with the holdup are Charles Leroy Spandler and James Clarence Rehner. Both were arrested by the FBI in Pennsylvania.

While the grand jury returned the indictments yesterday, the Fidelity and Deposit Co., insurer which paid the bank its losses, filed claim to the money recovered by the FBI. Agents said about half the amount was found when Rehner was arrested.

John Diehl Heads Henry Hart Post

The officers of Henry Hart Post 1411, Veterans of Foreign Wars, elected last night will be headed this year by John Diehl, the new commander.

Other officers chosen were: Russell Myers, senior vice commander; Harry Reiber, junior vice commander; James Darling, chaplain; Vernon Crable, judge advocate; Verner Winner, quartermaster, and Dr. Paul Castelle, post surgeon.

Charles Bajac was elected three-year trustee and Guy Smith, commander, was elected two-year trustee. Installation of officers will be held next month.

Man, 21, Charged With Arson In Theatre Fire

MARTINSBURG, W. Va.—A charge of arson has been placed against a 21-year-old man who police said admitted setting fire to an old theater because "he experienced a thrill out of seeing a fire."

Arthur W. Kief of Martinsburg was charged with starting a fire in the State Theater where about 100 persons were attending a revival meeting Sunday night. Three firemen were slightly hurt rescuing families from apartments above the theater. The fire caused \$35,000 damage.

Police Chief Kenneth Cushwa said Kief admitted setting the fire after extensive questioning. He also told police he had started a fire in the basement of the theater last Thursday but had put it out, Cushwa said.

Mary Haworth's Mail

Editor's Note: Girl's fiancé consistently dines with friends who never invite her.

DEAR MARY HAWORTH: I am engaged to a man who is consistently invited to Sunday supper by longtime friends of his — a couple whom I know and aren't disposed to be very well also. But they never include me in their invitations.

When I mention this slight to Ben and explain that they do it intentionally, he laughs it off and says: "Well, you know how jealous she is; and her husband can't help it." The husband has been known to step out constantly and the wife is very jealous of him.

In fact this man once asked me for a date and I told him plainly that I am not the disloyal or indiscreet type, and that I could never approve a man's doing the way he does. His wife knows I'm not interested in him, and so does he.

**Man Says Girl Henpecks Him**

Nonetheless they ask my fiancé to their Sunday suppers and usually call him Sunday morning for that same evening. When I've asked Ben not to go he says "Don't be childish," I say he insults his own intelligence by going in these circumstances; and he says I am just henpecking and want my own way. When I threaten that I won't be home to him if he goes, he goes anyway.

I've told Ben I can't understand why he would consider this man his friend, who has a wife yet tries to insult me, by asking me for a date. He says: "Oh, he always did try to take my girls away from me." Am I being unfair, in asking him not to go to their suppers?—C. L.

**Man's Disloyalty Is Indefensible**

DEAR C. L.: If it is an established fact that you are engaged to marry Ben, then his behavior is indefensible—in accepting hospitality from old friends who also know you well, in circumstances that constitute a purposeful continuing slight to you.

As your fiancé, Ben should decline such invitations in such a way that the couple would feel obliged either to include you graciously, or count him out, as a "lost cause," from their angle. Plainly their purpose is to come between Ben and you, and "break it up" — using their Sunday suppers as bait to make him aware that they "look down" on his — a couple whom I know you and aren't disposed to be very well also. But they never include me in their invitations.

**Two Juvenile Woman-Baiters**

Ben's sly disloyalty to you, in giving countenance to their dirty work, indicates the following: He has no confidence in himself, or his judgment, or his social acceptability. He is a sponger and a bootlicker. Neither he nor the other fellow is really a man in the fully integrated adult sense. The two probably have an adolescent sort of buddy-tie to one another, and slyly share a condescending sense of contemptuous superiority to their "women" or to all females.

That's why Ben doesn't mind his friend's pass at you, nor make an issue of the wife's snubbing you; and why the husband is making a continued social play for continued cronism with Ben, on terms that leave you out in the cold.

**Nobody Here To Count On**

A manly man with proper backbone and a decent sense of justice would give short shrift to this left-handed mistreatment of his fiancée. If and when pointedly asked to neglect her, in favor of persons determined to cut her — and that's what these invitations amount to — he would say in effect: "Sorry, I'm afraid I can't accept for tonight (or Sunday night) because I usually spend Sundays with Cathy."

That returns the challenge squarely to them. They may either back down and say "Bring Cathy" or drop the subject, thus conceding defeat of their divisive aim.

In conclusion may I say: It seems the height of folly for you to marry Ben; also a waste of time being engaged to him. He just isn't enough of a person to bother with, in terms of character, there's nobody home.—M. H.

## Bill Changes Proposed By Judge Harris

Makes Suggestions At Request Of County Legislators

Changes in juvenile case handling have been suggested by Associate Judge Morgan C. Harris in recommendations requested by Allegany County's legislators on the companion "two judges for this county" bills.

The recommendations were asked by on Senate Bill 306, which would provide a second judge for this county on the retirement of Chief Judge George Henderson March 17, 1957, and Senate Bill 614, which would elevate Allegany County Juvenile Court to Circuit Court status.

Four Suggestions Judge Harris listed four recommendations.

The first would be for the Legislature to provide the Allegany County Circuit Court for authority to appoint a master to hear juvenile cases.

This could be done by amending Senate Bill 614 or by another bill.

The second would be to provide for the junior judge of Allegany County, in the event the companion bills are passed, to hear juvenile and non-support cases. In his absence, Judge Harris suggested that any other qualified judge in the circuit could hear them.

Broad Magistrate Power The third recommendation of Judge Harris is to include Allegany County with those 15 Maryland counties that allow the trial magistrates to have concurrent jurisdiction with the Circuit Court in non-support cases.

This would ease the work of the Circuit Court, he added. The final recommendation was to set for the disposition of pending juvenile cases in case both bills are passed.

Judge Harris called for the passage of the companion bills. One judge, he declared, cannot handle the work load in Allegany County Circuit Court.

And, he added, Juvenile Court Magistrate Morris Barron has informed him that Juvenile Court business takes all his time.

## Senate Gets Garrett Fire Unit Pay Hike

The State Senate has received a Garrett County delegation-sponsored measure that would increase the allotments made by the county to eight volunteer fire departments.

Passed in the House Monday was House Bill 824 sponsored by the Garrett delegation which authorizes and directs the Board of Garrett County Commissioners to pay these sums to these companies:

Oakland, \$2,800; Grantsville, \$2,800; Deer Park, Accident, Friendsville, Kitzmiller and Gorman, all \$2,000, and Bloomington, \$1,800.

H. D. Swartzendruber, president of the Garrett County Board of Commissioners, said the bill increases considerably the current allotments.

Currently, the appropriation to the companies is as follows: Oakland, \$1,500; Grantsville, Deer Park, Friendsville and Kitzmiller, all \$1,200, and Accident, Gorman and Bloomington, all \$800.

## Man Arrested For Larceny

A Bedford area man will be given a preliminary hearing today on a larceny charge resulting from the theft of material from a Southampton Township junkyard, the case having been solved through the cooperation of Pennsylvania and Maryland State Police.

Being held in Bedford County Jail is Earl Raymond Redinger, 33, of RD, Bedford, who was arrested yesterday by Pennsylvania State Trooper N. C. Robbins and Tfc. D. A. Tucker of the LaVale barracks of Maryland State Police.

Authorities said Tfc. Tucker was notified of the larceny and asked to keep a check on area junkyards since Southampton Township was just over the Maryland-Pennsylvania line. After a sale of items which corresponded with the stolen articles was discovered at a local junkyard, Tfc. Tucker and Trooper Robbins arrested Redinger at a local address. He waived extradition and was committed to Bedford County Jail pending the preliminary hearing.

Judges Set Conference On Water Rate Case

Chief Judge George Henderson will go to Hagerstown tomorrow to confer with Judge D. K. McLaughlin on a water rate case concerning Hagerstown.

The case had been argued in January, with the attorneys requesting permission to submit briefs, which the judge is expected to be granted in the immediate future, Judge Henderson said.

STUDENTS ON TOUR—Members of the Junior and Senior classes of Catholic Girls Central High School left here yesterday morning for a trip to Baltimore and Annapolis. Yesterday the girls were in the Monumental City and today in the state capital. Left to right some of the 39 girls who

made the trip are Rea Prendergast, Patricia Harris, Ellie Prendergast, Sally Maurey, Carolyn Arnold, Doris McDonald, Barbara Scott, Veronica McKenzie, Kathryn Marlin, Mary Alice Thompson, Mary Louise Brallier, Louise Comer and Linda Kuhlman. Four sisters are in charge of the group.

## Fatal Crash Details Given By Trooper

Virginia State Trooper Roy S. Smith, in a statement today to The Cumberland Evening Times, clarified details of the triple fatal automobile accident Saturday evening on U. S. Route 30, near the Harpers Ferry bridge, in which one of the victims was Miss Hazel C. Nelson, 52, of 5633 Ready Avenue, Baltimore, a former resident of Cumberland.

The other victims were Edgar W. Smith, 38, of near Hillsboro, Va., driver of the other car involved in the head-on collision, and a passenger in his car, Alvin Smith, also of near Hillsboro.

An Associated Press dispatch from Richmond, Va., Monday quoted Trooper Smith as saying the accident occurred when "one of the drivers attempted to pass a parked car," thus creating an impression that this parked car was the direct cause of the accident.

Trooper Smith today denied stating that the parked car was a direct cause of the accident. "There was a car parked with all four wheels off the highway at the scene," Smith said, "but the accident was caused by Edgar Smith's car crossing the center line to crash head-on into the car driven by Miss Nelson. The impact of the collision caused Miss Nelson's car to be driven back into the parked machine, but she had already passed this car before the crash."

"Several cars had been parked in the area by fishermen at the time," he continued, "and eyewitness sitting in one of them stated Smith, driving at an excessive rate of speed, was entirely responsible for the accident as his car, headed east toward the bridge, crossed over into the other lane in which Miss Nelson was driving west toward Harpers Ferry at moderate speed. Edgar Smith's car served across the center line without warning and Miss Nelson could not have avoided the collision, despite the fact that she had room to pull entirely off the right side of the highway, as she had no warning of the impending crash."

Miss Nelson was a daughter of the late Robert F. and Clara E. (Brant) Nelson and was born in Cumberland. She resided here before moving to Baltimore 23 years ago.

Funeral services and burial took place here today.

## Parkside PTA To Hear Baron

## Man Critical As Result Of Scaffold Fall

A Terra Alta millwright was critically injured while working on a construction job this morning at the Pittsburgh Plate Glass Company Works No. 7 plant on North Branch.

Admitted to Memorial Hospital was Arch Lee, 58, of Terra Alta. He is currently residing in a local hotel, according to fellow employees.

Hospital attaches said Lee was in an unconscious condition when he was admitted to the institution. At noon today he was still unconscious and in "critical" condition.

Attaches said the man was working for the Lehigh Valley Corporation when he fell approximately 12 feet from a scaffold which he was dismantling.

A spokesman for the company said Lee was working with F. I. Baker at the time of the accident. It was reported that his head struck the bottom brace of the scaffold.

The accident occurred at 7:45 a. m., shortly after Lee had reported for work.

Hospital attaches said the man is suffering from severe head injuries, but the extent of the injuries have not been determined.

## Local Youth Sentenced To 18 Months

Donald W. Swanger Takes Appeal After Conviction On Theft

A 20-year-old local youth, with a long criminal record, was sentenced to 18 months in the Maryland House of Correction this morning in Trial Magistrate Court.

Trial Magistrate Donald W. Mason sentenced the youth, Donald Willard Swanger, of 119 Roberts Street, after finding him guilty of petit larceny. He was apprehended last week along with Eugene Paul Swick, 25, Mary Street, in connection with a series of thefts of metal from the Western Maryland Railway Company.

This morning Swanger waived a jury trial and entered a plea of not guilty to a charge of stealing scrap metal, valued at \$61.84.

Paul M. Fletcher, state's attorney, presented the state's case. He called Edwin Llyra, county criminal investigator, two Western Maryland Railway police, a member of the Baltimore and Ohio Railroad Company's police department to the stand. Llyra read a statement that Swanger had given under oath, admitting to the thefts. The statement related how Swanger had stolen the metal and hauled it away.

When the defendant took the witness stand he admitted making the statement, but informed Magistrate Mason that he had not told the truth. He testified he was never near the area where the metal had been stolen.

In sentencing the youth, Magistrate Mason noted that in 1932 and 1934 he had been paroled in Juvenile Court, and that in 1935 he was sentenced to 18 months in the Maryland House of Correction in Circuit Court on a breaking and entering charge.

Swanger served seven months of the sentence and was released. Following the hearing Swanger prayed an appeal, and Magistrate Mason set bond at \$1,000 for the defendant's appearance before the April term of Allegany County Circuit Court.

He was committed to the Allegany County Jail in default of the bond.

Meanwhile, Swanger's father is lodged in the Mineral County Jail at Keyser pending a hearing on a grand larceny charge.

Authorities there said Jesse Swanger, of 119 Roberts Street, has been lodged in the lockup in default of \$1,000 bond. He will be held for action of the April grand jury of Mineral County Circuit Court.

Keyser City Police charged Swanger with stealing four new automobile storage batteries from the Faulk Brothers scrap yard last week.

## Spring Arrived At 4:17 Today

Spring arrived at 4:17 p. m. today but Old Man Winter tried to get into the act.

Light snow fell in Garrett County this morning but was not in such an amount to cover the roads as of 11:30 a. m. The State Roads Commission at Oakland reported the ground "white in spots" but did not believe the snowfall would accumulate.

Snow flurries were noticed here mixed with rain.

The Weather Man predicts clearing tonight with a low near 32 in both Allegany and Garrett counties. Tomorrow will be sunny with little change in temperature.

Friday, increasing cloudiness and some warmer is forecast.

## Money Men Consider Wage Raise For State Teachers

ANNAPOLIS — (AP) — The money men of the Legislature took up the teachers' pay question today after a "smooth sailing, smooth shaving" session on budget cuts.

Educators from throughout the state went before the Senate Finance Committee to argue their case for a bill to boost teachers' salaries \$400 a year next September and \$100 more one year later. Influential committee members said the salaries undoubtedly would be boosted, but probably by no more than a total of \$400, if that.

Notes Compared The hearing was held as a subcommittee of the House Ways and Means Committee reported on its meeting yesterday with the 15-member Senate committee to compare notes on budget reductions.

The joint meeting was held behind closed doors, but it was reported to have resulted in a trimming of more than one million dollars from the 363 million dollar proposals handed the Democratic-controlled Legislature by Republican Gov. McKeldin.

The governor's budget was 6.8 millions shy of balance, and he had proposed a nickel-a-pack tax on cigarettes and one-to-four-cent levy on cigars to make up.

But when the Senate budget probes under Chairman Turnbull (D-Balto County) finished their work, they had come up with more than eight million dollars worth of bookkeeping devices and revised income estimates.

Money To Spare With the million plus in budget shavings agreed upon by the joint committee yesterday, this left the lawmakers with a balanced budget and a couple of million dollars to spare.

Sen. Northrop (D-Montgomery) said last night Milton C. Raver, executive secretary of the Maryland State Teachers Assn., had told him yesterday a \$400 teachers pay raise would cost 9 million, compared with earlier estimates of 11 million.

Some senators have suggested privately that this could be financed through use of the two million dollar spare money and a smaller tobacco tax than the one proposed by the governor. Others have proposed a higher beer tax, a new levy on soft drinks and a quarter cent raise in the State income tax.

Northrop, whose county now levies its own two cent cigarette tax, said he would join senators from tobacco producing counties of Southern Maryland in opposing a State tax on the same product.

The Ways and Means subcommittee report to the full committee and the teachers' pay hearing were held as the governor prepared to send down his supplementary budget. This includes items which cropped up since the submission of the main budget earlier in the session.

It was understood he planned to ask for further appropriations of less than \$1 million dollars, including \$250,000 to set up training for handicapped children of preschool age.

The handicapped training item was approved by the Legislature several weeks ago, but the lawmakers directed the governor to include it in his budget. Reports that he was advancing the program by one year touched off murmurs of disapproval among Democratic leaders.

To Make Recommendations After the Senate Finance hearing on teachers pay, a Ways and Means subcommittee headed by Del. Lee (D-Montgomery) will meet tonight to discuss the same question and make some recommendations to the full committee.

Turnbull said he hoped to have the budget bill on the Senate floor Thursday.

Shortly thereafter the House is expected to begin consideration of the capital improvements program, which totaled 13½ millions in its original form but is due for a scrutinizing session by the joint money subcommittees.

Other Statehouse developments: 1. Del. Machen (D - Prince Georges) said backers would try to revive the rockfish January-February ban bill today. The measure, which would prohibit the

## County Road Work Totals Six Million

Eleven Projects To Be Underway Here In Few More Weeks

The State Roads Commission has or will have underway by April 1 what is believed to be the largest highway and bridge improvement program at one time in Allegany County.

The program involves 11 contracts totaling \$5,934,916.67. All but one are underway and the contract for that has been awarded but the notice to proceed has not been received, according to G. Bates Chaires, SRC district engineer.

Six of the 11 contracts are for highway improvements involving 14,376 miles, according to figures compiled by Lewis Metz, final engineer at the district office on Braddock Road.

These figures reveal that 2,287,370 cubic yards of dirt must be moved for the projects. In addition, 312,000 cubic yards must be "borrowed," dirt taken from pits at other sites, in order to complete some projects.

Projects Listed The projects are as follows: Contract A466-617—Connecting road between State Route 51 and Pittsburgh Plate Glass Company Works 7 with bridge over B&O Railroad. Distance .928 miles. Financed by Allegany County and the federal government with supervision by the State Roads Commission. The contractor is George F. Hazelwood Company. This project is 52.58 per cent completed and is expected to be in use about the middle of summer. Cost \$444,692.02.

Contract A461-420—Widening, relocation and surfacing of U. S. 220 from south of Rawlings towards McCoolie. Distance 1.419 miles. This is 69.61 per cent complete and is expected to be completed about the middle of July. Contractor is Cumberland Contracting Company and the cost is \$324,951.

Contract A461-7-620—Widening, relocation and surfacing of U. S. 220 from south of Rawlings towards McCoolie. This contract will complete the rebuilding of U. S. 220 from Cresaptown to McCoolie. Distance 4.285 miles. This is 12.48 per cent complete and is expected to be finished late this year or early in 1958. Contractor is the S. T. Brotenmark Construction Company. Cost is \$706,778.85.

Contract A461-620—Relocation of U. S. Route 40 from the top of Martins Mountain eastward towards Flintstone. Distance 2.589 miles. Presently 52.73 per cent complete, this project is expected to be completed late this year. Contractor is the Berco Construction Corp., of Hampton, Va., and the cost \$1,149,065.

Contract A461-620—Relocation of U. S. Route 40 from the top of Polish Mountain westward to Gilpin. Distance 1.945 miles. This is 2.35 per cent complete and is expected to be completed sometime next year. Contractor is the Central Pennsylvania Quarry, Stripping and Construction Company, Hazleton, Pa. Cost is \$1,594,280.20.

Contract A465-1-620—Relocation of State Route 36 from its intersection with U. S. Route 40 to Corriganville. Distance 3.194 miles. This project is just underway and is scheduled for completion early in 1958. Cumberland Contracting Company is the contractor and the cost is \$758,767.50.

All but one of the bridge projects have been started. However, just what percentage progress has been made is not immediately known since that is handled through the Baltimore office of the SRC.

Bridge Projects The bridge projects are as follows:

Contract A464-9-620—A three-span continuous beam bridge on relocated U. S. Route 40 over Town Creek about 14 miles east of Cumberland. The bridge is about 200 feet long with a 30-foot roadway. Contractor is Hazelwood. Cost is \$237,280.80.

Contract A465-2-620—Single span WF steel beam bridge and concrete retaining wall over Braddock Run on relocated State Route 36 at U. S. Route 40 about one mile west of Cumberland. The bridge is about 51 feet long with 32 to 72 feet of roadway. The contractor is Brotenmark and cost \$189,819.

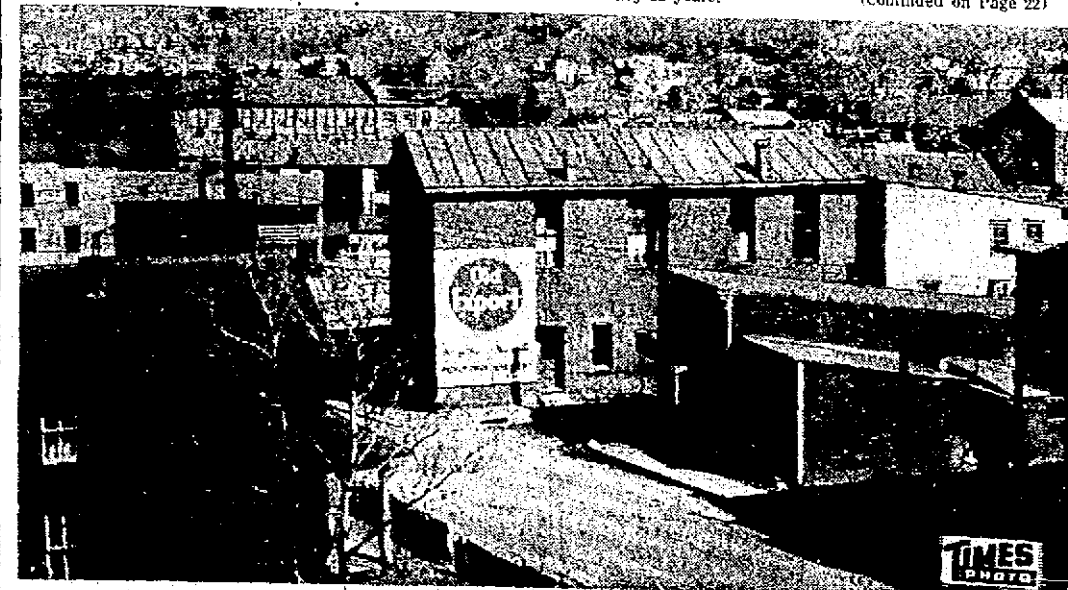

Contract A464-620—Single span WF steel beam bridge on Umba Street School next Sep. State Route 36 relocation over Jennings Run at Corriganville, and Friday of this week. Registration will be held from 3:30 road width of 50 feet. Contractor p. m. until 5 p. m. on these days. Miss Catherine Thomas, principal, said the new students who have filled out application blanks will not be required to register on these days.

Miss Thomas said the parents must bring a birth certificate to the school.

PTA Meets Today The Parent-Teacher Association of Corriganville School will meet this evening in the school building auditorium. The speaker will be Homer Higgins, supervisor of face exploration for abductees and pupil personnel. Room visitation and piers for the Cumberland will be held from 7 to 7:30 p. m. prior to the meeting.

Contract A452-9-620—A three-span pre-stressed concrete bridge over the Potomac River on Maryland Route 51 over Evitts Creek near Braddock Run. The contract has been awarded but the notice to proceed has not been received. The bridge is 133 feet long with two 34-foot roadways with 16-foot median. Contractor is George Hazelwood. Cost is \$370,478.

Contract A452-3-620—Subsidiary exploration for abutments and piers for the Cumberland Thruway. Contractor is Froehlich. (Continued on Page 22)

BUILDINGS BEING RAZED—The general view above shows some of the buildings which will be razed to make room for the third Cumberland housing project in the area of West Oldtown, Thomas, and Cresap streets and Hemlock alley. Some of the

homes have been sold for salvage materials and these are the ones being torn down at present. Only a few families still reside in the area. The remainder have been relocated in other sections of the city.

## Bedford County Ballot Contest Planned May 21

BEDFORD—Contests for two county offices developed Monday as candidates beat the legal deadline for filing petitions.

Republicans will have a primary battle for the nomination for register and recorder, while Democrats will have a fight for the nomination for jury commissioner.

The GOP battle between incumbent Robert H. Hammer of Bedford and Snake Spring Township farmer J. Henry Baker for register and recorder is the center of greatest interest in the 1957 countywide elections. Hammer filed his petition Monday for a fourth term in the office.

Another aspirant who had circulated petitions for the Republican ballot did not file before the 4 p. m. deadline.

William J. Mostoller will be the Democratic candidate for register and recorder. His petition was filed shortly before the deadline to end weeks of speculation on Democratic plans for the contest. He is a resident of RD 3, Bedford.

Two Democrats will contend for the nomination as jury commissioner, with the nomination itself tantamount to election. Incumbent Clarence Diehl will be opposed by Mrs. Mary Reta Hunt of Bedford, whose papers were filed late Monday afternoon. Each party is entitled by law to one

## Heart Drive Report Shows \$447 Netted

GRANTSVILLE—Mrs. Irva Mickey and Mrs. H. C. Edwards, co-chairmen for the recent Northern Garrett County Heart Drive campaign, report the drive netted \$447.50.

Of the amount, plastic heart containers accounted for \$447.07, with the following breakdown for Heart Sunday: Grantsville \$81; Jennings \$29.60; Friendsville \$46.73 and Accident \$25.37.

Contributing over \$10 were Grantsville Post 214, American Legion, \$15; Grantsville Rotary Club, \$12.85; Beachy Memorial Church, \$23.31; Lutheran Sunday School, Jennings, \$15.01 and Conservative Mennonite Church, \$25.

Workers included: Grantsville—Mrs. Mickey, Mrs. Edwards, Mrs. O. J. Glofely, Mrs. Clayton Edwards, Miss Lillian Saenger, Miss Karen Miller, Miss Donna Durst and Gerald Beachy; Friendsville—Mrs. Ralph Swanger, Mrs. Ward Livingston, Frances Lancaster, Lois Lancaster, Thora Jones, Elsie and Patricia Jones and Virginia Schroyer; Accident—Mrs. Charles Will, Jennings—Mrs. Audra Dutt, Mrs. Howard Hetrick, D. W. Hershberger also assisted.

Jury commissioner so the primary winner, barring an unusual upset by write-in votes, will be elected.

William B. Shoenthal of New Paris, incumbent, has no opposition for the Republican nomination as jury commissioner.

Keyser Chamber  
To Meet Friday  
KEYSER—James R. McCartney, executive secretary of the Morgan Chamber of Commerce, will speak at the annual dinner meeting Friday of the Keyser Mineral County Chamber of Commerce.

The dinner is scheduled for 6:30 p. m. at the Upper Potomac Shrine Club on Route 50, W. W. Schofield, executive secretary of the local chamber, urged members to notify him not later than today if they plan to attend.

McCartney, a graduate of West Virginia University, has held the post of executive secretary of the Morgantown Chamber of Commerce since 1951. He has had wide experience in Chamber of Commerce work and has traveled extensively over West Virginia and nearby states in his capacity as executive secretary of the Morgantown Chamber.

Schofield said that following the dinner and preceding McCartney's talk, there would be an election of three directors of the local Chamber, as well as a review of past activities and plans for the future.

## Junior Academy Of Science Grade School Fair Scheduled At Keyser

HEADS GROUP—C. D. Rumbaugh of Logan is president of the West Virginia Consumer Finance Association.

## State Police Will Enforce 'Tough' Policy

ELKINS—State Police of Company C, with headquarters at Elkies, are ready to comply with a new "get tough" policy in traffic law enforcement.

Capt. J. B. Jack, company commander, returned from a conference with Hazen B. Fair, new superintendent of the Department of Public Safety, Major B. L. Wright, department inspector, and all company commanders met with the superintendent on the new policy was promulgated.

Fair revealed that one change, eliminating marked patrol cars to stop giving violators a "sporting chance."

Fair said the tighter enforcement is aimed at halting a steady rise in traffic fatalities in West Virginia and is in line with a national trend.

Fair said troopers have been ordered to stop giving warnings to speeders and other traffic law violators. He said tickets will be written on the spot for offenses.

The former Marshall County sheriff said use of cars now plainly marked and in easily distinguishable blue and gold colors "will be discontinued as soon as practicable." He said the force would use "unmarked patrol cars and will quit giving the traffic violator a sporting chance."

The new enforcement policy will not affect the majority of drivers who habitually observe the traffic laws," Fair said, "but should be a warning to the drivers who have been disregarding the law and keeping one eye out for a marked police car hoping to go undetected or else, if stopped, to get off with only a warning ticket."

Issuance of the policy statement followed two days of conferences between Fair, his company commanders and top headquarters officers.

Fair said before the talks started he considered the state's high traffic toll the "top problem" facing the Department of Public Safety.

## Fire Auxiliary To Hold Supper

MT. SAVAGE — The Ladies Auxiliary of the Mt. Savage Volunteer Fire Company met recently in the fire hall. Mrs. Hazel Swauger presided.

Plans were discussed for a ham supper to be served April 4 for the benefit of the post graduate class. The auxiliary gave donations to the Heart Fund and the hospital for the State Firemen's Association. Games were played and refreshments served.

Hostesses for the evening were Mrs. Laura Smith, Mrs. Sarah Uhl and Mrs. Pearl Smith. A prize was won by Miss Mae Baker.

## Beall Band Boosters Will Meet Tomorrow

FROSTBURG — Mrs. Myron Lehr, president of the Beall High School Band Boosters Association, announces a meeting of the group will be held in the music room at the high school tomorrow at 8 p. m.

Mrs. Lehr states that few parents of the students who play in the school band have been attending the meetings. Unless more interest is shown within the next few weeks, it is thought that the organization will have to disband. This is the only group which actively and financially supports the high school band.

## Pre-School Children Register Tomorrow

FROSTBURG — John Manley, principal of Hill Street School, announced that parents of children who will start to school in September should register their youngsters at the school tomorrow and Friday between 3 and 5 p. m. A copy of the child's birth certificate should be presented at the time of registration.

If a parent is unable to report to the school on either date at the time specified, Manley asks that they call him at the school and a registration certificate will be mailed to them.

KEYSER — Approximately 50 participants are expected to enter exhibits in the West Virginia Junior Academy of Science Fair to be held in connection with the annual spring meeting of the West Virginia Academy of Science at Potomac State College, April 25-27.

W. E. Michael of the college biological sciences department, who is both state and local chairman for the fair, reports that announcements have been sent to every science club affiliated with the state's Junior Academy of Science. Applications for entrance in the fair are to be returned to him no later than April 1.

Exhibits on any scientific subject made by students of affiliated science clubs in grades nine through 12 in public, private and parochial schools of the state may be entered. Exhibits are to be brought to the college gymnasium for display Thursday, April 25.

Judging of exhibits will take place April 26 from 10 a. m. to noon, at which time only the exhibit will be closed to spectators. There are to be two grand prizes, a \$250 scholarship for a senior boy and one for a senior girl. Cash awards for first, second and third place will be given in both biology and physics. Science for tenth, eleventh and twelfth grade competition for senior awards as well as separate cash awards for ninth Grade exhibits.

The local committee assisting Michael with the fair includes Oscar Gustafson, Miss Margaret Ralder, Dr. Allen E. Murphy, Capt. Jack C. Fessenden and Albert Willhite and others of the maintenance staff.

State committee members are Daisy C. Dorsey, A. C. Blackwell, George Hunt and F. A. Clements. The Regional Science Fair committee includes Miss Dorsey, chairman, H. L. Mills, P. E. Reller, James K. Lowery, Ralph H. Coon, John D. Draper, George Hunt, Edward Seaman, E. E. Myers and H. M. Fridley.

Dorothy Looker, director of educational programs for WTOP television Washington, has forwarded application forms so that those recommended as being outstanding at the Science Fair may apply for a "Citation to Youth Award" on the "Ask It Basket" program. Students selected by a board of judges will be invited to appear on the program and explain their projects.

The Collegiate Academy of Science will be holding its convention simultaneously with the West Virginia Academy of Science meeting here as an affiliate of that group. Members will read scientific papers and five will be selected for publication by the academy.

Miss Jean Barr, sophomore medical technology major from Keyser who is president of the Medi-Sci Club, is planning to present a paper.

Present for a meeting with the local steering committee chairman recently were the following members of the state Academy of Science executive committee: Dr. Max Ward of Glenville State College, secretary; Dr. H. D. A. Koehler, WVU, president-elect; and Dr. L. N. Taylor, WVU, representative of the American Association for the Advancement of Science.

James T. Handlan, head of the biological sciences department, is state president of the state Academy of Science.

KEYSER — The Roth Military Honor Society has issued red and white pledge ribbons to 28 cadets of the ROTC. Men selected are as follows:

Byron Athey, Keyser; David Black, Keyser; Terry Broadwater, Cresaptown; William Brown, Industrial; Berlin Collett, York; Charles Combs, Baker; Paul Cook, Keyser; Leon Cox, Philip; Carlos Crozier, Greenville; Edwin Dean, Grantsville; James Giffin, Keyser.

Daniel Giordano, Charles Town; Eugene Hamann, Marlinton; Willem Hartman, Elkins; Nils Johansson, Wellersburg, Pa.; William Kester, Bridgeport; William Landis, Weirton; Pete Lechiana, Galloway; William Markins, Aurora; Jack Miller, Parsons; Robert Miller, Hagerstown; Francis McNitt, Salem; Stanley Reed, Herndon, Va.; John Riley, Keyser; David G. Satterfield, Lumberton; Billy Sheppard, Wells; Bruce Sites, Whitmer and Jerry Wilson, Kearneysville. They will be initiated at a formal ceremony Friday, April 5.

The Roth Society was established at Potomac State in the fall of 1953 for the purpose of honoring men of the ROTC who have done outstanding work in military science. Candidates are required to have a grade average of "B" in military science and an overall academic average of "C" for a minimum of 14 hours of work. The student must furthermore possess a well integrated personality and exhibit qualities of leadership. Admission is by majority vote of the members.

Stephen Lowe is commander of Roth. Advisors for the group are Lt. Col. John M. Galbraith,

FRANKLIN, W. Va.—Superintendent Floyd J. Dahmer has announced that the Pendleton County Board of Education adopted textbooks for use in the elementary schools of the county, beginning with the 1957-58 school term.

The textbooks committee which for some time has studied textbooks from the various companies, and which recommended the adoptions, was composed of Assistant Superintendent Arlie R. Blizard, Chairman Katherine K. Propst, Lottie G. Wright, George Teter and Allen Rexrode. Herebefore textbooks had been adopted by the state, but beginning this year textbooks for future use will be adopted by the boards in the individual counties.

The board authorized the superintendent to request bids looking toward the purchase of two new 40-passenger school buses to replace two of the older buses now in use.

Dahmer also announced that work had started on the addition to Franklin Elementary School. Hugh Terry is construction foreman and will have charge of the work until the project is completed sometime in August. The contract calls for eight regulation size classrooms, two lavatory rooms, painting of both the interior and exterior of the entire building along with retreading of steps and the laying of asphalt tile in the corridors and in those classrooms with concrete floors.

Dahmer indicated that probably one of the classrooms would be used as a temporary kitchen in connection with the school lunch program, while another of the rooms would likely be used as a music room only.

In discussing the testing program in the county, Blizard indicated tests will be administered to the eighth grade pupils on the following schedule:

Franklin High School, Monday; Brandywine School, Tuesday; and Circleview High School, next Wednesday.

He also stated that the county office would give the West Virginia Golden Horseshoe test April 26, and that the Golden Horseshoe Day in Charleston would be observed May 17. Detailed information regarding textbook adoptions, tests and other items of particular interest to the county teachers will be placed in their hands by the county office in the near future.

## Scholarships To Be Awarded

MORGANTOWN — State high school thespians, orators and debaters will vie for eight West Virginia University scholarships March 28, 29 and 30 when the finals of the fifth annual State High School Drama Festival and Forensic Tournament will be held at the university.

The four-year scholarships will go to outstanding seniors as follows: One actor, one actress, one entry in the technical projects competition, two debaters, an orator, an extemporaneous speaker and an interpretative reader. The scholarships are sponsored by the WVU Board of Governors and provide for the remission of all university fees exclusive of those paid to state special funds and chargeable to special services for four years. They are of the same value as the annual Board of Governors Achievement Scholarships.

Participants in the university competition will be selected from outstanding seniors in 11 district contests. These are to be held at West Liberty State College, Parkersburg High School, Glenville State College, Fairmont State College, Shepherd State College, West Virginia Wesleyan College, West Virginia Institute of Technology, Greenbrier College, Concord College, Morris Harvey College and Marshall College.

In the two acting categories, the competition will be based on performance of one-act plays with a 35-minute maximum time limit. No scenery is used, and effects are limited to stage properties and lighting.

Top consideration goes to acting, which is valued at 80 percent in deciding winners. Also considered are choice of play, 15 percent; directoring, five percent; theater arts of gold and silver will be awarded to individuals selected for the all-state cast.

PMS & T and Sgt. Gordon L. Beach. The society is named for the late Col. Samuel Roth who, while with the Science Department at West Virginia University, was instrumental in establishing unit on this campus.

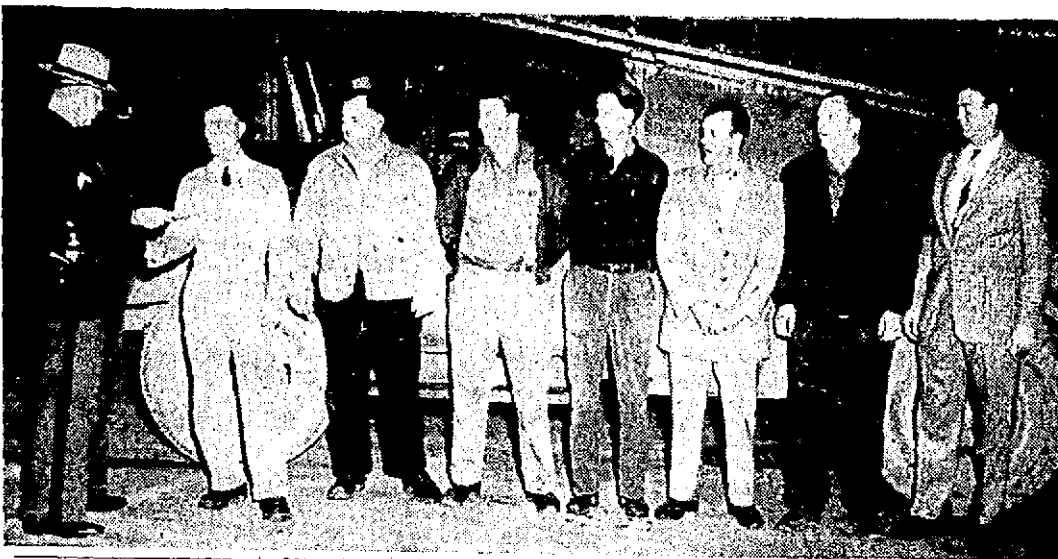

## Keyser Property Owners Protest Street Widening

KEYSER — A delegation of property owners along North Davis Street between Armstrong and Piedmont Streets attended the regular meeting of Keyser City Council yesterday afternoon to protest a plan to take over six feet of sidewalk space in the city's planning to widen the street.

The city's idea is to remove three feet on each side of the street to allow for two traffic lanes and the parking of cars on either side of the street. The matter had been previously published and plans had proceeded to have all utility poles set back on the two sides of the street and to have all utilities, including gas and water lines, corrected to meet the new requirements.

The citizens' delegation gathered at the council meeting and discussed their views. The Mayor and Council, as well as City Attorney Charles Smith, explained that two through lanes on the street are necessary as traffic on this stretch of highway has become so heavy that there is congestion most of the daytime hours.

The matter was finally delayed until tomorrow at 7 p. m. when a meeting of the council will be held to hear grievances of property owners.

## Shriners To Head Somerset Area Maple Festival March

MEYERSDALE — More cash prizes money than at any time in its ten-year history will be offered to participants in the annual Somerset County Maple Festival queen's parade Friday, April 5 at 7:30 p. m. In addition, three new classifications have been added.

The new classifications offer prizes to out-of-county high school bands, junior drum and bugle corps and miscellaneous floats. The miscellaneous float division was added in recognition of sportsmen's clubs participation last year, and to encourage entry of other floats besides maple and business.

Heading the parade will be units of Ali Ghan Shrine Temple of Cumberland. Included will be the divan, band, drum and bugle corps, patrol, wrecking crew and chanters.

Gimbel Brothers of Pittsburgh will again offer a trophy to the most outstanding majorette of a Somerset County high school band. The complete classifications and list of prizes offered follows:

Drum and bugle corps — first, \$70, and second \$35; community bands — first \$70 and second \$35; county high school bands — first \$35, second \$20 and third \$10; out-of-county high school bands — first \$40 and second \$25; marching units with 16 or more men — first \$35 and second \$20; life and drum corps — first \$15; junior drum and bugle corps — first \$10; farmers' maple floats — first \$40, second \$25 and third, \$15; business floats — first \$40, second \$23 and third \$15; FFA, 4-H Club and school floats — first \$40, second \$25 and third \$15.

Invitations have been extended to nearly 200 units within the tri-state area, and it is expected that the tenth anniversary parade will be the largest since the Maple Festival first began in 1948. Last year an estimated 20,000

## Missionary To Give Talk

FROSTBURG — Miss Alberta Fletcher, missionary in India for the Church of the Nazarene, will speak at the local church today at 7:45 p. m., according to Rev. Joseph D. Byers, pastor.

Miss Fletcher, a graduate of Bethany (Okla.) Nazarene College, secured her nurses' training at the Samaritan Hospital School of Nursing in Idaho.

While in India, she served as a nurse at the Reynolds Memorial Hospital in Basim, Akola District, Bombay State. She also was a supervisor of one of the hospital departments during this time and gave considerable time to teaching in the hospital's School of Nursing for Indian nurses.

While Miss Fletcher is on furlough she will be traveling extensively for the Church of the Nazarene in deputation services, telling of her work in India and of progress of the Christian church in her area of the country.

## Green Mountain Archers Plan Meet

KEYSER — The Green Mountain Archers held their first meeting of the 1957 season recently. Preliminary plans for the season were discussed and it was decided to hold a meeting Monday at Grayson's Sporting Goods Store, 2 Piedmont Street, at 7:30 p. m.

Former members of the club, as well as persons desiring to join, will be received at the meeting and may enter into the discussions. Repairs on the club's range will begin Sunday, March 31, at 1 p. m.

## WVU Herbarium Given Specimens By 47 Counties

MORGANTOWN — West Virginia University's herbarium handled 7,588 plant specimens during 1956, including 4,859 contributions and 2,699, which were sent to other institutions, museums and individuals, according to Elizabeth Ann Bartholomew, herbarium assistant. Led by Draxton, from which 91 specimens were received, 47 counties were represented among the 1956 contributions.

They included Berkeley, two; Grant, one; Hampshire, 13; Hardy, 11; Mineral, nine; Morgan, 26; Pendleton, 10; Preston, 10; and Tucker, seven.

Miss Bartholomew said the specimens were collected by university faculty members and students, together with individuals throughout West Virginia. The herbarium opened January 1, 1937 with 36,403 specimens. Its files now contain 88,426. In addition to plants it collected and mailed out during the year, 4,683 botanical publications were distributed among organizations and individuals.

## Moorefield 4-H Regional School Slated

KEYSER — Four-H girls from Hardy, Hampshire, Grant and Mineral counties will attend a regional 4-H clothing school Friday, according to Mrs. June Veach, Mineral County home demonstration agent.

The school will be held from 9:30 a. m. to 2:30 p. m. in Presbyterian Fellowship Hall on Main Street in Moorefield for 4-H members who are taking clothing projects 3, 4, 5 and 6. Interested 4-H leaders and adult counselors have also been invited to attend the training school.

Miss Ruth Knoch, Extension state clothing specialist, and Miss Mildred Fizer, state 4-H Girls' Club agent, Morgantown, will conduct the school. Mrs. Annie Shobe, Hardy County home demonstration agent, is chairman for the event.

The program will begin with registration at 9 a. m. At the opening session, the Coffman-Fisher Company of Moorefield, will present a style show featuring the latest creations. The remainder of the school will include information about new fabrics, clothing projects, construction and pressing helps.

Lunch will be served by the Hardy County Farm Women's Council.

If he learns to move a little faster, Frostburg's Bill Fearer is going to have a good chance of playing a lot of football at George Washington University next fall.

This is the opinion of Paul "Bubbles" Thompson, another ex-Beall star, who will be receiving his degree at GW with-in a few months Paul Thompson following a brilliant career with the Colonials.

Co-captain of the Colonials last fall and one of the heroes of GW's Sun Bowl victory on New Year's Day, the husky end recently signed by the Washington Redskins has been observing Fearer in spring workouts. In fact, "Bubbles" will be playing against Bill Saturday afternoon when the Varsity and Alumni teams meet at Washington and Lee Stadium in the second annual spring game staged by the Colonials.

Bill, whose dad, the late Cliff Fearer, was a standout lineman at Allegany High, has been playing a guard position in GW workouts. At Beall two seasons ago, Bill was a standout center, being the first griddle from the Frostburg school ever to be honored on the All-Maryland first team. (Thompson was on the second All-State).

"I've been watching Bill in practice," Thompson said several days ago while home for a visit, "and he's plenty tough. In fact, they think a lot of him at school and I believe he's going to see plenty of action in the next few years." Fearer played on last season's freshman team.

Thompson, incidentally, is scheduled to enter military service early next year. He is in the ROTC program at GW and will go into the Air Force as a second lieutenant.

But in the meantime, the husky Midland athlete hopes to gain a year of experience in the National Football League. "Bubbles" is a stickler for physical conditioning and you can bet that he will be spending many hours during the summer getting in shape for his fling with the Redskins. He'll be ready in this respect when the Washington club takes off for its training camp in August at Occidental, Calif.

Thompson is also getting some coaching experience under his belt, utilizing some of his free time at GW to serve as an assistant at London, a private school for boys in the District of Columbia.

# Home Run Hitters Find Range In Spring Play

## Buc Rookie Dick Stuart Hits Fifth In Citrus Loop

By JOHN CHANDLER  
The Associated Press

Home run sluggers are beginning to find the range on the exhibition circuit. So far, the National Leaguers are far ahead of the Americans.

In eight games yesterday, there were 23 homers and most of them broke up the old ball game.

Ten clubs have played 10 exhibitions and six have completed 11. A total of 161 homers have been hit—93 by National and 62 by American League teams.

Giants, Phils Tied

The New York Giants and Philadelphia Phillies have each clouted 17 homers, while the Chicago White Sox lead the Americans with a dozen.

Dick Stuart, the Pittsburgh rookie, who belted 66 homers with Lincoln of the Western League last year; Jim Lemon, Washington; and Hank Aaron, Milwaukee, each have hit five exhibition blasts.

Stuart got two 400-foot home runs yesterday as the Pirates defeated the White Sox 9-3. He fanned the other three times at bat.

Rookie Neil Christy hit a two-run homer in the ninth to provide Washington's 5-4 victory over Cincinnati. Clint Courtney's two-run homer had tied the score for Washington in the seventh. Gus Bell, Bob Heinrich and George Crowe homered for the Redlegs.

Kansas City defeated Brooklyn 6-5 when Johnny Groth rapped the ball over the fence in the 10th inning in another duel of homers.

Gus Zernial hit another for the A's, while Don Zimmer, Duke Snider and Gino Cimino got one apiece for the Braves.

Piersall Hits Jackpot

Jim Piersall hit the first Boston homer of the spring, but it was a grand-slammer in the third inning and helped the Red Sox to a 7-6 victory over the St. Louis Cardinals.

The Phillies hit three homers and the Tigers two as Philadelphia took a 6-5 decision in 11 innings from Detroit. Joe Lonnett, reserve catcher, led off the 11th with a homer, and the Phils added another on three singles. Earlier, two Phil rookies, Harry Anderson and Fred Van Dusen, homered, while Harvey Kuenn and Charlie Maxwell each hit one for Detroit.

Bob Lennon, up for another trial with the Giants this season, clubbed a three-run homer in the fourth inning and the New Yorkers came from behind to defeat the Chicago Cubs 9-4. Rookie Bob Schmidt also homered for the Giants.

Home runs put the Yankees back in the game against the Milwaukee Braves, and Gil McDougald's clutch double in the ninth scored two runs to give New York a 6-5 decision. Mickey Mantle and rookie Woody Held each homered with a Yankee on base in the fifth and sixth innings.

The Baltimore Orioles downed the Cleveland Indians 8-4 after rallying for five runs in the eighth inning. Brooks Robinson of Baltimore hit a homer and triple.

## Wayland's Girls Shoot For Record

## Hot Bradley Puts Garden Fans In Tizzy

By FRED DE LUCA

NEW YORK (INS)—A scandal kept Bradley out of Madison Square Garden for seven long years. Now, after just one day back in the arena, the Peoria Braves once again are the talk of the basketball world.

This time, however, the talk is all good, for Bradley last night turned in one of the most brilliant performances in the history of the Garden.

The powerhouse Braves overcame a 19-point deficit with a ridiculous ease to crush Xavier of Ohio, 116 to 81, in a record-shattering display that got them past the quarter-final round of the 20th Annual National Invitation Tournament.

Temple Tops Dayton

Bradley (22-7) now goes on to a semi-final meeting with Temple (19-9), which was sparked by Guy Rodgers to a 77-66 win over Dayton in the other semi-final match Thursday, Memphis State (23-5) meets St. Bonaventure (17-5).

Bradley's mountainous total of 116 points, including 42 points on four shots, broke these three NIT and Garden college records:

1. The one game NIT high of 110 set by St. Louis in 1955.
2. The one game Garden high of 115 set this season by St. John's.
3. The one game NIT free throw record of 31 held jointly by Louisville and St. Joseph's, both set in 1956.

Bradley last played in the Garden in the 1950 NCAA finals against CCNY. Eight players on that Bradley team were involved in the basketball scandals the following year.

Use Full-Court Press

The Braves have not appeared in the Garden since then, but their return for the NIT was one never to be forgotten.

The Peoria Indians started slowly against Xavier and were losing, 40-21, after 13 minutes of play. Then they instituted a full-court press that broke Xavier's poise.

Bradley then shattered Xavier by scoring 95 points in the remainder of the game for what must rank as the hottest 27 minutes in Garden basketball history. The Braves still were losing, 52-41, at the half but they outscored Xavier, 72-23, after intermission.

Barney Cable led Bradley with 28 points followed by Bobby Joel, Mason with 23. Joe Viviano topped Xavier with 17.

A crowd of 10,543 fans screamed their amazement over Bradley's scoring and then shouted their approval of Rodgers' all-round brilliance.

Feeds Mel Brodsky

The 60 floor general for Temple repeatedly drove past his Dayton defenders to pop up soft left-handed shots. Rodgers scored 20 of his 25 points before intermission.

With his team trailing by 41-39 at the half, Rodgers started to feed Mel Brodsky, who pumped in ten quick points to put the Philadelphia ahead to stay. Jay Norman also benefited by Rodgers' feeds as he scored 17 of his 23 points in the second half.

Temple, winner of the first NIT in 1938, thus eliminated Dayton from his sixth quest for the crown. The Ohio Flyers have been NIT runners-up four times. Arlen Beckhorn was high for Dayton with 17 points.

ABC To Continue Wednesday Fights

NEW YORK (INS)—The International Boxing Club and the American Broadcasting Company have signed a multi-million dollar agreement to continue the televising of Wednesday night fights for two years.

The new contract goes into effect on June 1 and an estimated \$6,500,000 to \$9,000,000 is involved in the agreement.

## Porous Infield Chief Worry Of Red Sox For Pennant Bid

SARASOTA, Fla. (AP)—An air of uncertainty surrounds the Boston Red Sox training camp. The Red Sox can finish anywhere from second to fifth without raising an eyebrow. They have a fine hitting outfield, good catching and fair pitching but they also have what is probably the most porous infield in the league, they sadly need a left-handed pitcher or two and two of the club's most dangerous batters—Ted Williams and Mickey Vernon—are nearing 35. The Red Sox finished fourth—13 games behind last year.

Mike Higgins, starting his third year at the helm after one happy and one disappointing season, is neither optimistic nor pessimistic as he discusses the Red Sox' pennant chances.

Infield Chief Problem

"Our chief problem," Mike conceded, "is the infield, of course. The loss of Don Buddin to the service has hurt us a lot. He was a good shortstop for us and he would have been much better this year."

If Higgins had to open the season tomorrow, he probably would have Dick Gernert at first base, Gene Mauch, the retrograded 31-year-old former national leaguer, at second; Billy Klaus at shortstop and Ted Lepcio at third. That would mean that Vernon and Goodman would be warming the bench or at best, share the regular first and second base posts.

Higgins tried to sound convincing in predicting the Yankees would make no runaway race of it.

"The Yankees?" he repeated. "I don't concede them anything. If they beat us, they beat us, but they've got to do it on the field, not on paper."

Best Hitting Outfield

In Williams (.345), Jack Jensen (.315) and Jimmy Piersall (.293), Higgins owns the best hitting outfield in the league. The trio slugged 58 homers and drove in 269 runs. The catching with Sammy White (.245), Pete Daley (.267) and rookie Haywood Sullivan, up from San Francisco (.296), presents no problem.

"Dave Sisler (.26) had a good first season and should be better. I look for Tom Brewer (.19) to develop into a top-flight star this year. I really think we've got enough pitching for a fine staff. That's the one place we've just got to improve. The only thing we lack is a good lefthander and I just don't know where we can get one. We don't seem to have one in camp."

## Centre Street, Chaney's Even Rec Playoffs

The title series in both the High School and Men's Rec basketball leagues will go the three-game limit with Centre Street Methodist and Chaney's Transportation squaring accounts last night.

Centre Street rallied to edge Tri-State Roofers, 39-38, in the High School loop. Chaney's were in front all the way to send Burke's Appliances down to a 51-42 setback in the Men's playoffs.

The quints will clash in the deciding games tomorrow on the Carver floor. Roofers and Centre Street meet at 7:30 while Burke's and Chaney's play an hour later.

Roofers, paced by Richard Marriott's 10 tallies, were in front at the quarter marks but fell to a 10-point rally by the Methodist in the last stanza. "Ace" Browne paced the winners with 24 markers.

Roofers had won the opening game Monday, 66-50.

Burke's failed to end the Men's title rounds after winning, 56-45, Monday as Chaney's never trailed in evening the best-of-three set. Colin Detrick had a dozen counters and "Kooch" Detrick 11 for Chaney's. Lewis dumped in 16 for Burke's and Malone came up with 14.

## McGuire Fears Chamberlain If Tar Heels Get To Finals

CHAPEL HILL, N. C. (INS)—Frank McGuire, coach of undefeated North Carolina, the nation's top basketball team, said today that he feels his Tar Heels can get by Michigan State without trouble in an NCAA semi-final game Friday night at Kansas City.

But he anticipates some trouble from Will (The Stilt) Chamberlain of Kansas, the star of the No. 2 team in the country and one of the most publicized players in the history of the game.

McGuire said: "Of course we have to get by the Spartans first and their star center, Johnny Green, could prove to be a problem, especially under the basket."

Should the Tar Heels dispose of Michigan State, they probably will engage Kansas, which is favored to stop the San Francisco Dons, defending NCAA champions, in the other semi-final contest Friday night.

If North Carolina and Kansas meet for the title Saturday night, and that is the way the experts figure it, McGuire believes some trouble should develop from other Jayhawk stars, excluding Chamberlain. He continued:

"I really don't think you can put a defense against Chamberlain. What we'll have to do is concentrate on the other Kansas players. Their guards are great outside shooters and are big enough to cause us no end of trouble."

Kansas coach Dick Harp is taking things as they come—first San Francisco and then North Carolina, if the Tar Heels defeat the Spartans. He commented at Lawrence, Kas.:

"San Francisco is going to be a awful tough. The Dons have won the NCAA title the last two years. They didn't impress anybody during the regular season—except when the chips were down."

"I can't look ahead to North Carolina until we get by San Francisco. And if I know Phil Woolpert (San Francisco's coach), the Dons will have some surprises for us."

## Bill Goodman Again Fights For Position

SARASOTA, Fla. (INS) — Spring generally is the time of year when the Boston Red Sox are unable to find a regular job for Billy Dale Goodman.

The usual announcement already has been made by manager Mike Higgins.

"Goody is my utility man," Mike said.

He apparently meant it just as Joe Cronin, Joe McCarthy and Lou Bourqueau before him, meant it. It is almost impossible to find a spot for the skinny veteran at this time of the year.

But somehow, things change during April and Billy Goodman probably will be found holding down first or second base on a steady basis.

Poor Year at .293

Last year was the only one in which Billy was assured of a job. He was handed second base from the start. He went on to have one of his poorer seasons, appearing in only 105 games and hitting .293.

Billy is glad to be back on the "utility" list again. He figures it is a good omen and he might improve on his .305 lifetime batting average.

Currently Gene Mauch is the Red Sox second baseman and Higgins has indicated the veteran will hold the job. He hit a handsome .348 for San Francisco in the Pacific Coast League last season and in seven games for the Sox he belted .320.

Even so, there are few in the Red Sox camp who will bet against Goodman taking over the keystone job sooner or later.

Thinks He'll Play

Goody himself thinks he'll be a regular again. He said:

"Unless some of those infielders who are going to be regulars suddenly become .300 hitters I'll be in there somewhere."

First base, his best position, appears slightly crowded with longball hitters like Mickey Vernon, Dick Gernert and Norm Zauder.

This leaves second base vulnerable so far as Goody can see. Mauch's lifetime mark in the majors is .216 and it will take more glove work than a second baseman can attract to make up for that sort of hitting.

There is, of course, the outside chance that Mauch has learned to hit major league pitching. But Gene will have to prove it while Goodman has proven it over the years, including in 1950 when he led the American League with a spanking .354 mark.

## Spahn Says Legs In Great Shape

BRADENTON, Fla. (INS) — The Milwaukee Braves' veteran left-hander Warren Spahn says "my legs are in the best shape since 1932."

Spahn, dean of the Milwaukee mound staff, backed up his observation yesterday as he pitched five innings against the New York Yankees then went through some ball-chasing practice before heading for his shower.

"I hurt my left knee in 1933 and every year thereafter I showed up in camp with bad legs. So from that standpoint, I should be ahead," he said. He said he's been working on control right now and "next time I'll go seven innings and then I'll be ready to go all the way."

## World High Jump Champion Ineligible

LOS ANGELES — (INS) — World high jump champion Charlie Dumas was ruled ineligible today by the University of Southern California.

Track coach Jess Mortensen said Dumas, world-record holder at 7 feet 3/4 inch and Olympic champion, failed to meet the university's scholastic requirements.

## Score Sets No 1957 Goal, Looks Only For First Win

This is another in a series of spring training camp stories by Norm Gerdeeman, former local baseball star and minor league manager, who is covering major league teams working out in the Far West. Gerdeeman now resides in Lake Tahoe, Nev., where he is employed by Wagon Wheel Casino.

By NORM GERDEEMAN

TUCSON, Ariz. (Special to The Evening Times) — Bob Feller, suited in black with white shirt and tie, dropped in on Hi Corbett Field and the Cleveland spring workout for an upcoming exhibition with the Baltimore Orioles. It was only a visit, Bob said quickly, and his retirement is final.

Players and writers quickly came over to speak with the all-time great American League pitcher. And one of the first Cleveland players to greet the ex-fireballer was Herb Score, the 23-year-old pitching star who well could equal or break Feller's great string of records. He already has 35 major league victories. That's a long haul from Feller's 18 season record of 28 pitching triumphs. But the pink-faced youngster from New York and Florida has only two seasons behind him.

"At his age and with his ability," the sage Cleveland pitching coach, Mel Harder, was saying, "Score has a great future ahead of him. He could break a lot of records. And the way he's going I suppose he could parallel Feller's career."

Looks To First Victory

Score is a straight-speaking kid. His flair for giving straight answers, for flashing a quick smile and his modesty all have made him a favorite with baseball writers. The Indian lefty, with a 20-9 record for 1956 and 253 strikeouts, is one of the finest pitchers in the American League and it was natural that writers should ask him what kind of a season he is looking forward to.

"I'm only looking to winning my first game this season," Score replied. "I never predict I'm going to win so many games. Sure I hope to win 20, but there are a lot of factors involved."

## Racing Dates Approval Set At Waterford

CHARLESTON, W. Va. (AP) — The State Racing Commission has agreed to grant Waterford Park April 27-July 4 horse racing dates once the track operators submit required lists of officials and other data.

The three commissioners found the Waterford application, and the condition book setting forth proposed purses for the meeting's first 12 days, awaiting them when they assembled here yesterday for a short session.

The purse distribution set forth by the one-mile track near Chesapeake will amount to somewhat more than \$10,000 a day. Waterford proposes daily programs of eight races each.

Legal Views Sought

The commission also decided to seek the Attorney General's views regarding a section of a recent legislative enactment governing the life of construction permits issued by the racing agency.

The act of the recent Legislature was made effective from its March 5 passage date. One section provides that the life of a construction permit "shall be limited to a period of three months only."

The new language adds, however, that the commission may extend such permits for successive periods of three months each, to an aggregate time of 24 months, if the agency feels holders are proceeding in good faith.

Temporary Permit

The statute now stipulates that a construction permit issued and in effect on the day the new enactment became effective "shall be included under and controlled by the provisions of this section."

The commission requested the opinion particularly in view of a construction permit now held by Charles Town Raceway, Inc., for a proposed harness racing track at Charles Town.

The permit was issued on a temporary basis July 19, 1955, but in effect did not become permanent until after a local option election on the matter last May.

At a March 5 hearing at Charles Town, representatives of the raceway group said that a failure to raise the necessary money to finance the \$1,700,000 venture was holding up construction.

## Brooks Reject Bid For 'Newk'

VERO BEACH, Fla. (INS) — Nobody has offered the Brooklyn Dodgers a million dollars for Don Newcombe, but the huge right-hander had the satisfaction of knowing today that the Cincinnati Redlegs offered seven players for him and were turned down.

Dodger vice president Buzz Bavasi said he rejected a seven-for-Newcombe swap proposal made by Redleg general manager Gabe Paul as a trade he "hadn't taken too seriously." In fact, Bavasi said, it was "silly."

Although neither side would disclose the names of the seven players involved, Paul insisted that the offer was "for real."

The Cincinnati GM, who wanted to give the Brooks \$300,000 for the huge 27-game winner last Oct. 29, said the only thing he wanted was a guarantee from the Dodgers that Newcombe's pitching arm was in healthy condition.

The City Basketball League wraps up its season tonight on the Carver gym with two games carded. Champion Old Germans will meet Rec Five at 8:30 while Old Exports tangle with 40&8 Club at 7 o'clock.

The Brewers have lost only one game in the second-half race, being upset by 40&8 Club last week. Tonight's contest will be their 10th. Rec Five has only one victory in nine starts.

Old Exports have a 2-7 record with 40&8 showing a 4-3 mark in tonight's windup.

Knights of Columbus nailed down third place in the standings by thumping Rec Five, 100-74, at Carver last night. The triumph was the sixth in 10 attempts for the Casey. Don Madden sparked the winners with 26 points while Bill Brall had the same total for the Rec quint.

Bob Lookabaugh dunked in 32 points to lead Peskin's to its seventh victory in 10 tilts. Bob Pence had 28 for the losing Mount Rain Club.

## Birds Worried About Miranda

SCOTTSDALE, Ariz. (INS) — The failure of Baltimore shortstop Willie Miranda to report for spring training was funny two weeks ago but Orioles officials are worried about the Cuban now.

The last the club heard from Willie was 11 days ago when he phoned from Cuba. He was vague about what was detaining him and when reminded of his obligation to the club he was quoted as saying, "I know, but I have personal obligations too."

Yesterday the Orioles contacted Roberto Maduro, owner of the Havana Sugar Kings of the International League, who said he would get in touch with Miranda and see what is making him the only hold-out in baseball.

Meanwhile the Orioles are using Jim Brideweser and rookie Ronnie Hansen at shortstop but neither appears capable of filling Miranda's shoes. Brideweser has been limited action due to an injury and 18-year-old Hansen has played only one year professionally.

## Jackie Seen Replaced By TV Mystery

By CHARLES MERCER

NEW YORK (P)—It now appears certain that Jackie Gleason will not be presenting a regular weekly television show on CBS-TV in the 1957-58 season.

Gleason's manager George Dunham says that no contract for a weekly show has been signed with the network for next season and that Gleason does not want to continue a weekly program.

While CBS has no official comment, it is known that a new hour-length mystery program based on the adventures of Perry Mason is tentatively scheduled for Gleason's Saturday night hour.

The breaking up of the Gleason troupe is imminent. Art Carney has announced that he is separating himself from Gleason this spring. Audrey Meadows' contract is up for option in June.

After seven years Gleason has found that a weekly TV program "is physically too tough," Dunham said.

This does not mean that Gleason will not be seen on television. His contract with CBS has 15 years to run—and he will be paid whether or not he works.

But Gleason likes to work—in moderation. An excellent actor, he loves show business and obviously is interested in dramatic roles. He will play himself, for example, in a "Climax" dramatic production next month about the life of June Taylor.

This season his audience viewing ratings have slipped below those of Perry Como, who appears opposite him on NBC-TV.

## 20th-Fox Boss Hits Pay-Video

By JACK O'BRIAN

NEW YORK (INS)—Another funny Skellon show, what? ... 20th-Fox boss Spyros Skouras came out solidly against pay-TV, maintaining movie loyalty to theatres.

For rating worshippers: Amos 'n' Andy had 99 per cent of all radio listeners in their heyday.

It's plain that March likes little genius Rob Strom. Hal's best act-hour-length mystery program went into an appearance of based on the adventures of Perry Mason is tentatively scheduled for Gleason's Saturday night hour.

Circle Theatre's "Four Homes For Danny" (from an actual troupe is imminent. Art Carney has announced that he is separating himself from Gleason this spring. Audrey Meadows' contract is up for option in June.

Joseph White, early radio's "Silver Masked Tenger," is getting million-volt X-ray therapy on hip and arm at Bronx Veterans Hospital.

Vaughn Monroe's Thursday ABC-TV Air Force show gets shot down after tomorrow night.

Every gal in CBS-TV's "Cinderella" (March 31) but one has a size seven foot or bigger. Dorothy Stickney's footie is size three.

Agencies are fighting to cut down the basic contracts from 26 to 18 weeks, to let them get out from under Nops quicker.

Nanette Fabray makes the pilot film of "June" for NBC, then pops into the new Tropicana in Las Vegas.

June Lockhart auditioned in a new Lester Lewis-owned panel show, "Who Pays Me?" before flying back to Hollywood.

Van Johnson decided with all his old movies on TV anyway he might just as well make the jump, and will—aboard "Playhouse 90."

"The Big Surprise" was renewed for another year.

"Father Knows Best" was renewed for a year because the sponsor was satisfied with Robert Young and Company.

TAKES IT ON THE CHIN—Red Buttons, now trying his hand at the movies, shows actress Miyoshi Umeki how he took it on the chin as one of television's most famous victims. In three years he went from brilliant success to unemployment in a classic example of how TV consumes talent. Now he's trying a dramatic role in "Sayonara" with Miss Umeki and Marlon Brando.

## Sailor Freed Of Assault, Window-Breaking Charge

SALISBURY (P)—A 20-year-old sailor has been acquitted of an argument over the location of a New Hampshire newspaper man and breaking the window of a car belonging to Maryland Del. Robert P. Cannon (D-Wicomico).

The sailor, Clarence Van Meter, had been sentenced to six months in jail on the assault charge and fined \$25 for breaking the car window when he was convicted in a lower court.

The newspaperman, Lawrence Freney, 33, and Mrs. Cannon testified Van Meter and a companion, Ernest Lee Wagner, 18, also part on the "West Point" TV series.

Court of Appeals in Washington, D. C., reversed an FCC ruling that "Play Marce" is a lottery, so the cash giveaway will be back on the air shortly.

Audrey Hepburn and Mel Ferrer cringed through their "May-erling" reviews, winced at the ratings, and decided: No more.

## Morgue's Not Staging Place For 'Pinafore'

BALTIMORE (P)—The St. David's Players needed a hall to stage "H.M.S. Pinafore" May 21. Richard D. Byrd decided today to call Dr. John H. Fischer, superintendent of city schools.

He dialed City Hall and asked for Dr. Fischer. Identifying himself, he said, "We would like the use of your facilities for our production, doctor."

"Are you kidding?" asked the voice on the other end. Assured Byrd was serious, he said, "It's fine with me but I've never heard of anyone putting on 'H.M.S. Pinafore' at the city morgue."

Byrd was talking to Dr. Russell S. Fisher, chief medical examiner.

The American jumping mouse can leap, and maintain perfect balance in flight, for a distance of about 10 feet.

## 'Shore Judge Increase Proposal Rejected

ANNAPOLIS (P)—The Senate Judicial Proceedings Committee has turned thumbs down on a proposal by Sen. Rasin (D-Kent) to increase the number of circuit court judges in the two judicial circuits on the Eastern Shore.

Rasin's bill called for the 105th election of judges in any counties not having resident jurists at that time.

The three judges in each circuit currently are elected by all the voters of the circuit.

The three Eastern Shore senators on the committee expressed the view that additional judges are not needed now, but they said the same legislation could be enacted at next year's session if the situation changes.

British losses in the Battle of New Orleans were 2,000, compared to 71 Americans, according to the Encyclopedia Britannica.

## Sisters Of Charity Nun Becomes CPA

CONVENT STATION, N. J. (P)—Sister Kathleen Mary of the Sisters of Charity became New Jersey's first CPA nun, recently when she passed the state's Certified Public Accountant examination.

Sister Kathleen worked from 9 to 5 in a Newark, N. J., accounting office for some time to fulfill the requirements necessary before taking the exam. A graduate of the College of St. Elizabeth, she received an M.A. degree in business administration from Boston University and held a position in the accounting field before entering the Sisters of Charity in 1947.

## Contract Let For Building

WASHINGTON (P)—The architectural firms of Keyes & Lehigh, Washington, and Richard Collins & Associates, Silver Spring, Md., today were awarded a \$164,680 contract to design the proposed office building for the clinical center at the National Institutes of Health in nearby Bethesda, Md.

In announcing this, the General Services Administration estimated overall cost of the project at \$5,300,000.

The architects estimated that working drawings and specifications would be completed within six months.

## Woman Declared Dead Awakens 6 Hours Later

HADERA, Israel (INS)—A 60-year-old woman, declared dead by a local doctor, awoke several hours later from the deep coma into which she had sunk.

Mrs. Pessia Schachnowski, a widow was found apparently lifeless by the people with whom she boards. A doctor who examined her found no evidence of heart-beat or pulse and declared her dead.

Six hours later she awakened. It was understood that Mrs. Schachnowski chronically suffered from prolonged fainting spells.

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

# Suspect Held For Assault On Youngster

Youth, 16, Will Be Charged In Attempt Involving Girl, 3

FERNDAL, Md. — A 16-year-old Baltimore youth was picked up today in connection with the assault of a 3-year-old girl.

Anne Arundel County police said they had a statement from the slim 6-footer and that charges against him would be prepared. Three-year-old Jean McMullin was found Monday near an athletic field, crying hysterically. A bandana was knotted tightly about her neck and a length of rope was at her feet.

Small Cut, Scratches Aside from some scratches and a small cut, the Brooklyn Park tot was not physically harmed.

Members of a Brooklyn Park High School physical education class told police they frightened away a man from the child and chased him into some woods.

Apprehended At Home The boy was picked up at his home just inside the Baltimore city line. Police said they will prepare a petition charging him as a delinquent minor. After that Juvenile Court will decide whether it will waive jurisdiction and turn the case over to Circuit Court for criminal prosecution.

The blonde-haired, blue-eyed girl, daughter of Mrs. David R. McMullin, was found more than a mile from her home.

Playmates told police the girl was led away by "a big man."

taking of rockfish during the two months, was bounced back to the Bay and Tributaries Committee after a hectic floor fight. It has been in the committee more than 15 days, which would enable proponents to revise it with a petition signed by at least 15 members.

2. The Senate gave tentative approval last night to another rockfish bill. It would outlaw the use of haul seines—a type of net used by commercial fishermen—in the Susquehanna flats of upper Chesapeake Bay.

3. The House Judiciary Committee held a hearing today on the "unsatisfied judgment" bill. It would set up a fund from which victims of uninsured motorists could claim accident damages exceeding \$100.

4. Sen. Rasin (D-Kent) said a finance subcommittee was ready to press for Senate action on a bill, already approved by the House, to require annual inspection of motor vehicles.

5. The House Alcoholic Beverages Committee met to hear witnesses on a bill which profit the issuing of more than one liquor license to any individual or company.

# Contractor To Face Loss Of Naturalization Papers

BALTIMORE — The government will ask the federal court here Monday to withdraw naturalization papers issued to a Silver Spring, Md. contractor.

Federal officials have filed a civil action against Joseph William Chandler, an electrical contractor, charging that he concealed his affiliations with the Communist party when he was naturalized in Georgia in 1943.

The suit against Chandler was first filed in 1954 and has frequently been before the court on legal motions.

In addition to the charge that he was a member and officer of the Communist party since 1928, the government claims that Chandler faced four criminal charges at various times and failed to reveal them at the time of his naturalization.

Also, Chandler is charged with leaving the United States in 1932 without a re-entry permit and returning in 1934 without an immigration visa. Federal officials claim this was misrepresented on Chandler's application for citizenship.

Mrs. Mary Stalcup Markward, a Silver Spring housewife who served as an undercover agent for the FBI in the Communist party for six years, has been subpoenaed for the start of the four-day trial.

Chandler, who also is listed under four aliases, will be represented at the trial by attorneys Joseph Forner of Washington and Harold Buchman of Baltimore.

# Brush Fire Report Cited

Although the current damp weather has acted as a deterrent towards brush and grass fires, authorities in nearby Morgan County, W. Va., have emphasized that permits must be obtained for brush burning.

West Virginia Conservation Officer Woodrow W. Parsons and Morgan County Forest Protector James Honaker pointed out that two fires over the past weekend burned an estimated 400 acres of land in that region.

Some 200 acres were burned Saturday when brush burning got out of hand on the Clem Largent farm and spread to the Taylor Farlow farm near Fisher's Bridge between Great Cacapon and Paw Paw. On Sunday afternoon, nearly 200 acres were burned over near Round Top in the Sir John's Run sector.

Illegal brush burning have also caused a number of fires in other sections of Morgan County, Parsons said, although no damage was reported. Permits for burning may be obtained by applying to Honaker.

# F. E. Ruark, Retired Merchant, Dies

CAMBRIDGE — Frederick E. Ruark, 85-year-old retired merchant who had been in ill health for several years, died last night in Cambridge-Maryland Hospital.

Ruark organized the defunct South Dorchester Telephone Co. and the Wingate branch of the County Trust Co.

He was born in Bishop's Head, 35 miles southeast of here, and operated a general store there for 66 years before retiring in 1934.

Besides his widow, survivors include a daughter, Mrs. Leonard Todd of Milford, Del., and three sons, Ashland Ruark of Wingate, Raymond Ruark of Bishop's Head, and Henry Ruark of Cambridge.

Funeral services will be held at 2 p. m. tomorrow with burial in Memorial Park Cemetery.

Some 200 acres were burned Saturday when brush burning got out of hand on the Clem Largent farm and spread to the Taylor Farlow farm near Fisher's Bridge between Great Cacapon and Paw Paw. On Sunday afternoon, nearly 200 acres were burned over near Round Top in the Sir John's Run sector.
